Reply of Government.—Will be considered.

SUBJECT No. 361.

Improving the Chamrajkere tank.

Mr. Shama Iyengar of Chamrajnagar Taluk.

Summary of discussion.—Chamrajkere tank is the only source of water-supply to the town for drinking purposes. It was requested on several occasions to put it in repairs, and each time the matter was referred to the Maramat Department. The Deputy Commissioner has inspected the tank this year. If this is repaired, the lands under it can be brought under wet cultivation. It is prayed that it might be repaired.

Reply of Government.—Already dealt with (*vide* Subject No. 311).

SUBJECT No. 362.

Widening of Bandigere and Hongalvadi Channels.

Mr. Shama Iyengar of Chamrajnagar Taluk.

Summary of discussion.—Bandigere and Hongalvadi Channels have been silted up and have become narrow. These channels are not only intended to irrigate paddy fields, but also to feed some important tanks. It is therefore requested that the silt might be removed and the channels widened.

Reply of Government.—Will be referred to the Chief Engineer for disposal.

SUBJECT No. 363.

Restoration of the Malligere tank at Chamrajnagar.

Mr. Shama Iyengar of the Chamrajnagar Taluk.

Summary of discussion.—For the past twenty years the holders of lands under Malligere tank in Chamrajnagar Kasaba have been praying for its restoration. Whenever the raiyats press the matter in the Assembly, it is being referred to the Maramat Department. Thinking that the Government would not undertake the work, the raiyats came forward to contribute one-eighth of the cost of repairs. Owing to the present scarcity, the raiyats requested the Deputy Commissioner and the Executive Engineer to direct the Amildar to recover the amount, and the Amildar was ordered to take mutchalikas accordingly. Nothing has as yet been done. It is very hard for the raiyats that they should pay assessment without realizing any crop. It is prayed that the Amildar might be directed to take early action in the matter. It is also prayed that as the lands under the tank extend over four miles, pipes might be laid and sowdies appointed for regulating the water-supply to all the lands. The revenue of the lands under the tank is above Rs. 3,000.

Reply of Government.—The disposal of this matter by the Chief Engineer may be awaited.

SUBJECT No. 364.

The removal of "addakatte" across the "halla" running to the "malagere" of Chamrajnagar.

Mr. Bachu Subraya Setty, Chamrajnagar Municipality.

Summary of discussion.—There are many wet lands under the "malagere" of Chamrajnagar. The water runs to a distance of about four miles. This is the chief source of water for the cattle and for inhabitants of four or five villages during summer. There is water running always in the "halla" known as "Sivagange" which supplies water to the above tank. Some raiyats have this year

diverted the water-course by constructing an "addakatte" with brick and chunam. This affects the supply of water to the tank. The representation made to the Taluk Amildar and Executive Engineer has become of no avail. It is therefore requested that this dam may be ordered to be removed. The present "addakatte" is only useful to one or two persons holding land to the extent of ten acres while it affects (1) the cultivation of 1,000 acres of land under the tank, (2) the water-supply to the inhabitants and cattle of four or five villages and (3) the supply of water to the Government tank. Just as the Honganur Nala is attached to the Nala Department, if this is also attached to that Department and a nala opened for four or five miles from the tank, the area of cultivation will be doubled and there will be permanent supply of water for the cattle of Chamrajnagar and other surrounding villages during summer. It is therefore prayed that this may be done.

Reply of Government.—This matter requires the early attention of the Deputy Commissioner, to whom it may be represented.

SUBJECT No. 365.

Execution of Mandagere Channel and Bhrigu river projects.

Mr. A. Ramanna, Advocate, District Board, Mysore District.

The member was absent but other members spoke.

Summary of discussion.—The investment of large capitals on big works, though profitable to others and the Government, has left very little money for investment on irrigation works. Mandagere channel and Bhrigu river projects and other famine protective works may be undertaken at once with advantage to the people and the Government.

Reply of Government.—Will be very carefully considered by the Public Works Department.

SUBJECT No. 366.

Channels and water distribution work to be entrusted to the Revenue Department.

Mr. Kudlur Venkatasamaiya of Chamrajnagar.

Summary of discussion.—The baraward of channel overseers and sowdies is in the Revenue Department for six months in the year, *i. e.*, from July to December and in the Public Works Department from January to June. This is the reason why water is not properly supplied to the raiyats in time. It is therefore prayed that this establishment be placed entirely under the authority of the Revenue Department and that both the maintenance of the channel and supply of water be entrusted to the Revenue authorities.

Note.—The representation refers to the Chamrajnagar channels.

Reply of Government.—The question whether such small channels as those in the Chamrajnagar Taluk should take as many as six months to repair will be referred to the Chief Engineer for report. He seems to have no objection to give over the channels to the Revenue authorities for a longer period.

SUBJECT No. 367.

Annual repairs to branch channels.

Mr. K. Venkatasubbaiya, Municipal Member of Nanjangud Municipality.

Summary of discussion.— The annual repairs to main channels are done by Government. But it has been ordered that such repairs to branch channels should be done by the raiyats themselves. The contribution amount and kandayam

diverted the water-course by constructing an "addakatte" with brick and chunam. This affects the supply of water to the tank. The representation made to the Taluk Amildar and Executive Engineer has become of no avail. It is therefore requested that this dam may be ordered to be removed. The present "addakatte" is only useful to one or two persons holding land to the extent of ten acres while it affects (1) the cultivation of 1,000 acres of land under the tank, (2) the water-supply to the inhabitants and cattle of four or five villages and (3) the supply of water to the Government tank. Just as the Honganur Nala is attached to the Nala Department, if this is also attached to that Department and a nala opened for four or five miles from the tank, the area of cultivation will be doubled and there will be permanent supply of water for the cattle of Chamrajnagar and other surrounding villages during summer. It is therefore prayed that this may be done.

Reply of Government.—This matter requires the early attention of the Deputy Commissioner, to whom it may be represented.

SUBJECT No. 365.

Execution of Mandagere Channel and Bhrigu river projects.

Mr. A. Ramanna, Advocate, District Board, Mysore District.

The member was absent but other members spoke.

Summary of discussion.—The investment of large capitals on big works, though profitable to others and the Government, has left very little money for investment on irrigation works. Mandagere channel and Bhrigu river projects and other famine protective works may be undertaken at once with advantage to the people and the Government.

Reply of Government.—Will be very carefully considered by the Public Works Department.

SUBJECT No. 366.

Channels and water distribution work to be entrusted to the Revenue Department.

Mr. Kudlur Venkatasamaiya of Chamrajnagar.

Summary of discussion.—The baraward of channel overseers and sowdies is in the Revenue Department for six months in the year, *i. e.*, from July to December and in the Public Works Department from January to June. This is the reason why water is not properly supplied to the raiyats in time. It is therefore prayed that this establishment be placed entirely under the authority of the Revenue Department and that both the maintenance of the channel and supply of water be entrusted to the Revenue authorities.

Note.—The representation refers to the Chamrajnagar channels.

Reply of Government.—The question whether such small channels as those in the Chamrajnagar Taluk should take as many as six months to repair will be referred to the Chief Engineer for report. He seems to have no objection to give over the channels to the Revenue authorities for a longer period.

SUBJECT No. 367.

Annual repairs to branch channels.

Mr. K. Venkatasubbaiya, Municipal Member of Nanjangud Municipality.

Summary of discussion.— The annual repairs to main channels are done by Government. But it has been ordered that such repairs to branch channels should be done by the raiyats themselves. The contribution amount and kandayam

for lands under both main and branch channels are not different. The above order is therefore inconvenient and troublesome to the people. The annual repairs to nalas in other parts are allowed at Rs. 75 per mile. But the rate for repairing the Rampur and Hullahalli Nalas including branch nalas in the Nanjangud Taluk is fixed at Rs. 100 and is being paid since the nala was opened. It is therefore requested that this novel order may be cancelled, the repairs to branch nalas done by Government as usual and the regular water-supply in them supervised by Government.

Reply of Government.—The report of the Chief Engineer should be awaited. The maintenance charge is provided for at the rate of Rs. 100 a mile.

SUBJECT No. 368.

Deviation of the Chik Devarayasagar Channel.

Mr. Mailaraiya, Seringapatam Tk.

Summary of discussion.—Requests that the Chik Devarayasagar Channel may be deviated at the fifth mile and re-connected at the twenty-second mile whereby about 10,000 acres of land will become irrigable and many villages supplied with water.

Reply of Government.—Will be referred to the Chief Engineer for consideration.

SUBJECT No. 369.

Repairs to the Narasambudhi tank at Nanjangud.

Mr. Guru Rao, Nanjangud Taluk

Summary of discussion.—Requests that the necessary repairs may be made to the Narasambudhi tank at Nanjangud as it is a long time since it was constructed, and as the silt from the Gundal river is accumulating and lessening its depth.

Note.—Mr. Venkatasubbaiya says that raiyats are ready to pay contribution.

Reply of Government.—Will be referred to the Chief Engineer.

SUBJECT No. 370.

Closing of the Forest waste-weir in the Hulhalli Channel.

Mr. Guru Rao, Nanjangud Taluk.

Summary of discussion.—Requests that the Forest waste-weir in the Hulhalli Channel may be closed as water does not flow freely in the channel, if it is utilized by the Forest Department for transporting logs, and the Forest Department ordered to remove their logs, etc., through the river.

Reply of Government.—Will be referred to the Chief Engineer and Forest Conservator.

SUBJECT No. 171.

Construction of a Railway line from Mysore to Hunsur

Mr. Narasinga Rao of Hunsur Taluk.

Summary of discussion.—Hunsur is an important commercial place. Vast trade in timber and other commodities is carried on here. If a Railway line is opened from Mysore to Hunsur, *via* Lakshmanatirthakatte and Yedatore, much profit will accrue both to Government and the public.

Reply of Government.—Noted.

SUBJECT No. 372.

A Light Railway line from French Rocks to Arsikere.

Messrs M. Varahaswami Iyengar of Sri Yadugiri Sadanandavardhini Sabha, Melkote, and B. Mailaraiya of the Seringapatam Municipality.

Summary of disscussion.—It is desirable that a Light Railway should be opened from French Rocks to Arsikere, *via* Herode, Melkote, Krishnarajpete and Channarayapatna. The Bhavani-Erode-Nanjangud line is also to be opened.

It will not only be convenient for men to travel but also for the conveyance of merchandise to all those places.

Reply of Government.—Noted.

SUBJECT No. 373.

Encouragement to persons establishing Annachattrams

Mr. Bale Chikka Basavanna, Yedatore Taluk.

Summary of discussion.—Encouragement may be shown to such persons as establish permanent Annachattrams, either by granting them lands yielding an annual income of sixty varahas, or by remitting the assessment on the endowed lands by sixty varahas. Mr. Dasa Shetti of Yedatore has been shown a concession by the remission of only thirty varahas. This being insufficient, it is prayed that the concession be enhanced to sixty varahas.

Reply of Government.—It may be left to the person who established the institution to apply for more concession, if he wants.

SUBJECT No. 374.

Transfer of the Chamrajnagar Chattram to Ummathur.

Mr. Amble Annaiya Pandit, District Board, Mysore District.

Summary of discussion.—It is thirty-four miles from Nanjangud to Kollegal. Ummathur is seventeen miles from both Nanjangud and Kollegal. There is a musafirkhana there for the use of gentlemen. The ordinary travelling public are put to much inconvenience. If the Chamrajnagar Annachattram is transferred to Ummathur, if the Smartha community are fed in the Sivakoota of the Chamrajnagar temple and rations issued to other sects, the travellers will be much benefited. The excess expenditure in Sivakoota may be met from the funds at the credit of the Chamrajnagar temple.

Reply of Government.—Unless there is found any strong objection, the transfer proposed will be effected.

SUBJECT No. 375.

Establishment of an Annachattram at French Rocks Railway Station.

Mr. Mailaraiya, Seringapatam Taluk.

Summary of discussion.—Requests that arrangements may be made to feed people at Krishna Row's Chattram at French Rocks, or an Annachattram which is unnecessary in other parts be transferred there.

Reply of Government.—It has been recently decided that this is not at present necessary.

SUBJECT No. 376.

The establishment of an "Annachattram" at Hunsur.

Mr. H. N. Appaiya Sastry, Hunsur Municipality.

Summary of discussion.—The people travelling between Mercara and Mangalore are put to much inconvenience for want of an "Annachattram." It is therefore requested that an Annachattram may be established at Hunsur, or one which is not of great use in other places transferred there.

Reply of Government.—It has already been decided that the establishment of an Annachattram at Hunsur is not possible (*vide* Government Order No. 1559, dated 22nd September 1905.

SUBJECT No. 377.

Increasing the Tasdik of Gopala Krishnaswami and Divya Lingeswaraswami temples.

Mr. Shama Iyengar of Chamrajnagar Taluk.

Summary of discussion.—Haradanahalli Gopala Krishnaswami and Divya Lingeswaraswami temples are ancient ones. It was requested that the Tasdik of these temples might be increased. It is said that the matter of making over a portion of the fund of Sri Chamarajeswaraswami

temple to these temples is under correspondence. It is requested that early orders may be passed on the subject.

Reply of Government.—The Deputy Commissioner's report is awaited, and he will be asked to submit it very early. The surplus fund of the Sri Chamarajeswaraswami temple cannot be used for better purpose.

SUBJECT No. 378.

Repairs to the two temples in the Arikere village.

Thimmannaiya of Seringapatam.

Summary of discussion.—There are two temples in the Arikere village, one dedicated to Vishnu and the other to Siva. The Vishnu temple in the midst of the village is in a dilapidated condition. It is feared that this may cause danger to the passers-by in the road adjacent to it. The Siva temple is also in the same state. The repairs to these temples are solicited.

Reply of Government.—If the devotees will contribute half the cost of repairs, the request will be considered. The Deputy Commissioner will also enquire into the matter and report on the condition of the temples.

SUBJECT No. 379.

Investment of the income from the lands endowed to Sri Narasimhaswami temple at Govindanahalli, Hunsur Taluk.

Mr. Narasinga Rao of Hunsur Taluk.

Summary of discussion.—The lands at Govindanahalli belonging to Sri Narasimhaswami temple at Hunsur have been leased out for a net yearly rent of Rs. 100. This amount, which is kept in the Taluk Treasury, may be lent out to some reliable persons and from the interest accruing therefrom the expenses of worship in the temple may be met. If this is not feasible, the income of the lands might be made over to the Archak for the satisfactory performance of the puja in the temple.

Reply of Government.—The Government have already directed the discontinuance of the practice of lending temple moneys to private individuals. Regarding the Archak being given the income from the lands, the Deputy Commissioner may be petitioned on the subject.

SUBJECT No. 380.

Repair of the Hanumantheswaraswami temple at Bannur.

Mr. Srinivasaiya, Bannur Municipality, T.Narsipur Taluk.

Summary of discussion.—The Hanumantheswara temple at Bannur is an ancient and famous one. The stone inscriptions show that many Inam villages had been endowed to the temple. There is at present only a "Paditara" of Rs. 1-3-2 a month and nothing else. The devotees have undertaken all Sevarthams. It is therefore prayed that the temple may be repaired at Government cost and the "Paditara" increased.

Reply of Government.—No increase of "Paditara" is possible. The devotees may supplement it by giving contributions. For repairs, the devotees may contribute half the cost.

SUBJECT No. 381.

Increase of the Tasdik amount to the temples at Talkad and necessary repairs thereto.

Mr. Sivabasavadevaru, T.-Narsipur. Taulk.

Summary of discussion.—The amount realized from the trees planted to check the growth of sand hills in Talkad may, it is requested, be utilized for increasing the Paditara and Deeparadhane allowances of Talkad Panchalinga

temples buried in the sand. It is also prayed that the repairs to these temples be carried out early as per Government Proceedings.

Reply of Government.—It is not possible to make over the income from the trees to the temples. The question of repairing them is under consideration.

SUBJECT No. 382.

Increase of pay to servants and Tasdik amounts of Honnadevi temple.

Mr. Siva Basavadevaru, Land-holder Talkad, T.-Narsipur Taluk.

Summary of discussion.—The jewels of Honnadevi-ammanavaru and Veerabhadraswami of Sosale and of Mallikarjunaswami at Ukkalgere were sold by public auction and the amount of Rs. 32,485-8-7 realized therefrom is said to have been credited to the Muzrai Funds as can be seen from the *Mysore Gazette* of 13th April 1893. Representations were made in the previous Assemblies and to the Muzrai Department to increase the pay of these temple servants and also the Tasdik amounts. Though ten or twelve years have elapsed, nothing has as yet been done. It is therefore prayed that these grievances may be redressed early.

Reply of Government.—The matter will be attended to very early. The Deputy Commissioner will be asked to enquire as to which of the articles now in stock may be sold, and submit a report. Tasdik may be increased if funds are forthcoming.

SUBJECT No. 383.

A separate building for Madhavarayaswami temple.

Mr. Siva Basavadevaru, Landholder, Talkad, T.-Narsipur Taluk.

Summary of discussion.—The temple of Madhavarayaswami on the bank of the river at Talkad is likely to fall down. It is therefore prayed that early orders may be passed for the construction of a separate temple building.

Reply of Government. - In Government Order No. 1551, dated 20th September 1905, it has been ordered that as no private contributions towards half the cost of repair were forthcoming, nothing could be done in the matter.

SUBJECT No. 384.

Repairs to and management of the Basaveswaraswami temple at Hadya, Yedatore Taluk.

Mr. Madappa of Mysore Taluk.

Summary of discussion.—The roof of the temple of Basaveswaraswami in the Hadya village, Yedatore Taluk, Mysore District, being a tiled one, has come down, exposing the idol to sun and rain. A sum of Rs. 15,000, the proceeds of the Inam lands endowed to the temple, is at the credit of the said temple. Mr. A. Sreenivasacharlu, the late Muzrai Secretary, had an estimate prepared to make the building a terraced one at a cost of Rs. 1,115. In accordance with that estimate and as per orders issued at the meeting last year, it is requested that the building may be terraced early and the Inam lands now under Government management made over to the temple pujari after the completion of the repairs, the temple being left in the hands of the Dharmadarsis for the regular performance of the puja.

Reply of Government.—The Deputy Commissioner will be written to on the subject. The temple may be built substantially if there is money.

SUBJECT No. 385.

Feeding the poor mofussil Sanskrit students in Mysore.

Mr. Srinivasa Rao of the T.-Narsipur Taluk.

Summary of discussion.—The good condition of the Sanskrit College at Mysore has attracted many students from abroad. Many mofussil students are inconvenienced for meals. Arrangements have now been made to feed some in the chattram. It is requested that necessary arrangements may be made to feed all such students in conformity with their caste customs.

Reply of Government.—This requires consideration. It is no doubt desirable, if funds permit, to feed strangers coming from a distance in quest of education and prosecuting studies regularly, instead of sending them adrift to beg food from door to door.

SUBJECT No. 386.

Timely disbursement of amounts required for Utsavams of Sri Anandeswaraswami, etc., from the Taluk Treasury.

Mr. Siva Basavadevaru Land-holder Talkad, T.-Narsipur Taluk.

Summary of discussion.—The Devadaya lands of Sri Anandeswara and Biksheswara temples on the banks of the Cauvery in the village of Binakanahalli, are under Government management. Arrangements are not made for the prompt disbursement of the amounts required for the utsavams, Deeparadhana and establishment charges of the above temples from the realizations of these lands. Many utsavams are not conducted in time as the bills have to be sanctioned in the District Office. It is therefore requested that arrangements may be made for the prompt disbursement of the necessary amounts from the Taluk Treasury after fixing the amounts to be spent on such occasions.

Reply of Government.—The Deputy Commissioner's report is awaited. He will be asked to expedite the matter.

SUBJECT No. 387.

Increase of paditara to the Chikdevamma temple at Heggaddevankote and the construction of a chavadi on the hill.

Mr. Lakshminarnappa, Heggaddevankote Taluk.

Summary of discussion.—The temple of Chikdevamma is situated on a hill at Heggaddevankote. Every day a thammadi and a watchman are in attendance. The daily allowance consists of one seer of raw rice and $\frac{1}{8}$ seer of oil. It was prayed in 1903 that this allowance might be increased. Nothing has yet been done. The temple servants suffer much and there is no light for the temple. A sum of Rs. 3,000 is at the credit of the temple. Want of a chavadi is much felt by the pilgrims on the hill. The old chavadi is in a dilapidated condition. It is requested that a chavadi may be ordered to be built early and the daily allowance increased.

Reply of Government.—The matter is said to be under correspondence. Action will be taken to expedite the disposal of the question.

SUBJECT No. 388.

The construction of a chattram at Melkote.

Mr. Varahaswami Iyengar, Sri Yedugiri Sadanandavardhini Sabha.

Summary of discussion.—The old chattram at Melkote was in a good locality. As it was in a dilapidated condition, it was sold by auction. With a view to build a new chattram the feeding was stopped seven or eight years back. Two years ago permission was given to conduct the feeding in the temple. The space allotted for this purpose is very narrow and visitors are put to much inconvenience during the utsavams. Nothing has been done from the savings. It is therefore requested that a new chattram may be ordered to be built in a neat locality.

Reply of Government.—The matter is under correspondence. Action will be taken to expedite matter.

SUBJECT No. 389.

Revival of the Mahanaivedyam in the temples at Melkote.

Mr. M. Varahaswami Iyengar, Sri Yedugiri Sadanandavardhini Sabha, Melkote.

Summary of discussion. It is proposed that the system of daily Mahanaivedyam in the temples at Melkote according to the order (Ayakat Patte) of the late Sri Krishnaraja Wodeyar may be revived for the welfare of the Province.

Reply of Government.—It is stated that the Deputy Commissioner's report has lately been received. The matter will be soon disposed of.

HASSAN DISTRICT.

SUBJECT No. 390.

A Munsiff's Court at Arsikere.

Mr. Balavant Rao, Arsikere Taluk.

Summary of discussion.—A Munsiff's Court may be ordered to be located at Arsikere with jurisdiction over the taluks of Arsikere, Kadur and Tiptur. Arsikere has been a prominent place geographically and commercially owing to its connection with the Railway. From the register of original Civil suits in the Hassan Munsiff's Court it seems that the number of cases from Arsikere Taluk alone is very great.

Reply of Government.—This is not possible.

SUBJECT No. 391.

Reduction of small cause jurisdiction of the Sub-Judge's Court, and the establishment of a Munsiff's Court at Hassan in addition to the Sub-Court, or of two Munsiffs' Courts, in place of the Sub-Court.

Messrs. Venkatarangaiya, Hassan Town Municipality and Anantakesavachar, Belur Taluk.

Summary of discussion.—The small cause jurisdiction of the Sub-Judge's Court may be reduced, as appeals are not allowed in such cases. Without appellate powers, the Sub-Court is not of much use to the public.

Instead of the Sub-Court at Hassan two Munsiffs of lower grades with an establishment may be made to work, as such an arrangement would be a source of great help to the 2nd Grade Pleaders, Advocates and the public.

Reply of Government.—It is not expedient to carry out the representation. The Sub-Judges have powers to try appeals but they must be referred to them by District Judges.

SUBJECT No. 392.

Increased Police staff to remove disturbance to cart traffic on Hassan-Arsikere road.

Mr. Balavanta Rao, Arsikere Taluk.

Summary of discussion.—There seems to be a gang of rogues who follow the laden carts from Arsikere to Hassan side during nights; and when the town limits are crossed the bales of piece-goods are cut open and contents removed. It is therefore solicited that either some extra Police Stations be opened or the number of Police staff increased with a view to minimise the number of crimes occurring so frequently of late.

Reply of Government.—The Inspector-General of Police is contemplating a re-distribution of the Police Force for the Hassan District. Till the revised arrangements are effected, the Inspector-General of Police will be asked to take steps to establish two or more ookads to guard the road efficiently.

SUBJECT No. 393.

Reduction in the number of weekly fairs in the Hassan Taluk.

Messrs. Venkatarangaiya and Shroff Dharnappa, Hassan Municipality.

Summary of discussion.—The weekly fairs which are being held at short distances from the town of Hassan decrease the import of articles into the town and consequently local merchants sell their scanty stock at higher prices in opportune times. This causes hardship to the people and also lessens the Municipal revenue. The number of weekly fairs in the Hassan Taluk with the exception of the two important fairs may therefore be reduced.

Reply of Government.—The District Board is against such abolition, but a suggestion will be made to raise market fees for effecting improvements.

SUBJECT No. 394.

Construction of a musafirkhana near Kattaya Police Station.

Mr. Narana Iyengar, Hassan Taluk

Summary of discussion.—A musafirkhana near the Kattaya Station is a necessity, as it is on the high road leading to the weekly fairs at Hassan, Alur and Manjarabad. It is also a thoroughfare from Hassan to Arkalgud, Periyapatna and other places. The construction of a musafirkhana may therefore be ordered.

Reply of Government.—Funds are not available.

SUBJECT No. 395.

Octroi duty in Hassan town.

Mr. Venkatarangaiya, Hassan Municipality.

Summary of discussion.—Some of the articles on which Octroi duty is levied in Hassan Municipality are not subjected to the duty in Alur town. This has given occasion to smuggling, for merchants bring those articles on which no duty is imposed at Alur into the Hassan town unseen and escape the levy of duty. As this has crippled the Municipal revenue of Hassan town, all the articles subjected to duty in Hassan may also be subjected to duty in Alur.

Reply of Government.—Will be dealt with by the District Board.

SUBJECT No. 396.

Grant of permission to build houses in villages.

Mr. Balavanta Rao, Arsikere Taluk.

Summary of discussion.—People of various villages in the Arsikere Taluk represented to me that licenses for building houses in villages are not disposed of with ease and for years together. The Government may be pleased

to issue orders to Assistant Commissioners and Amildars to give their best attention during their tours for enquiry and early disposal of such cases.

Reply of Government.—Delays should be guarded against. The Revenue Commissioner will be asked to issue needful instructions.

SUBJECT No. 397.

Removal of oil-mills from the centre of Arsikere town.

Mr. Balavanta Rao, Arsikere Taluk.

Summary of discussion.—The immediate removal of oil-mills from the centre of the town to a place outside may be ordered as they are a source of great nuisance to the public health.

Withdrawn.

SUBJECT No. 398.

Drinking water well for Nagathihalli, Arsikere Taluk.

Mr. Balavanta Rao, Arsikere Taluk.

Summary of discussion.—The necessity for drinking water at Nagathihalli is much felt, and the two smaller villages near it have been depopulated on account of the same difficulty. The authorities concerned will be good enough to look into this matter at their earliest convenience.

Withdrawn.

SUBJECT No. 399.

Supply of drinking water in villages of Adgur and Somesahalli.

Mr. Anantakesavachar, Belur Taluk.

Summary of discussion.—As in some villages, people and cattle experience much hardship for want of drinking water, an allotment may be made from the Local Funds General to be distributed proportionately among the districts to get the unfinished water-supply works finished and undertake new works if recommended by Amildars and Jamabandi Officers on inspection.

Reply of Government.—The individual cases mentioned will be referred to the Deputy Commissioner.

SUBJECT No. 400.

Construction of a pond in the northern extension of Hassan town.

Messrs. Venkatarangaiya and Shroff Dharnappa, Hassan Town Municipality.

Summary of discussion.—As represented last year, a pond (kola) is essential for the use of people in the northern extension of the Hassan town. Its construction may be taken in hand early.

Reply of Government.—This may be represented to the Deputy Commissioner.

SUBJECT No. 401.

Completion of projected roads in Hassan town at Government expense.

Messrs. Venkatarangaiya and Shroff Dharnappa, Hassan Town Municipality.

Summary of discussion.—Various roads designed for improving the sanitation of the town are not taken up and completed for want of funds. The grant of Rs. 4,000 sanctioned by Government is hardly sufficient to meet the amount of compensation to be paid for the lands already acquired. Government may therefore be pleased to allot funds for the completion of the above roads and other sanitary improvements.

Reply of Government.—An additional grant of Rs. 3,000 has been recently sanctioned as a special case.

SUBJECT No. 402.

Establishment of a Government girls' school in Hassan town.

Messrs Venkatarangaiya and Shroff Dharanappa of Hassan Municipality.

Summary of discussion.—A girls' school may be established in Hassan town as inconvenience is felt by the absence of such a Government institution.

Reply of Government.—If by private effort a school is started, the co-operation of Government may then be expected.

SUBJECT No. 403.

Establishment of a Weaving School at Grama.

Mr. Varada Iyengar, Hassan Taluk.

Summary of discussion.—About fifty houses with a population of 200 are living solely by weaving at Grama. The checks that are woven there were sent to the Exhibitions at Bombay and other places. On account of poverty they have not been able to effect any improvements in their work. The Government may therefore be pleased to establish a Weaving School at Grama.

Reply of Government.—The Aided Weaving School at Hole-Narsipur is not far off from Grama. If the sons of weavers at Grama wish to learn the use of the fly-shuttle loom or weaving generally, they may attend the Hole-Narsipur school. The matter may be represented to the Inspector-General of Education.

SUBJECT No. 404.

Anglo-Vernacular School for Grama.

Mr. Varda Iyengar, Hassan Taluk.

Summary of discussion.—As the Kanarese School and the Grant-in-aid English School are both in a flourishing condition, they may be amalgamated into an Anglo-Vernacular School.

Reply of Government.—This is not expedient. The matter may, however, be represented to the Inspector-General of Education.

SUBJECT No. 405.

Construction of the Anglo-Vernacular School building at Belur and raising the pay of Schoolmasters.

Mr. Anantakesavachar, Belur Taluk.

Summary of discussion.—(1) The school building is in a very dilapidated condition and the accommodation is quite insufficient. The Inspector-General of Education and the Deputy Inspector of Schools personally saw this during their tours, and we understand that the Senior Councillor during his recent tour has opined that the repairs and extension of the building should be expedited. Owing to the insufficient accommodation in the present building, which is situated midway between the Fort and the Petta, two houses, one in the Fort and another in the Petta, are taken up for hire. The land adjoining the present building has already been acquired for extending the school building. The repairs and the extension to the present building may be ordered to be taken up early the cost being met from the Provincial and other funds as it would not only relieve the Government from the burden of house rent but would also increase the efficiency of the school by bringing the whole school under the direct supervision of the Head-master.

(2) The pay of schoolmasters which, we hear, is under consideration may be raised early.

Reply of Government.—This is a question of funds.

SUBJECT No. 406.

The removal of Nayakanahalli village to another place and throwing open Holebore Amrut Mahal Kaval for cultivation.

Mr. Narana Iyengar, Hassan Taluk.

Summary of discussion.—(1) The tank and channel round the Nayakanahalli village in Kattaya hobli of Hassan Taluk have rendered the village very unhealthy. The village may be allowed to be established on higher ground.

(2) The portion of Holebore Amrut Mahal Kaval below the channel wherein it is inconvenient for Amrut Mahal cattle to graze may be made available for cultivation.

Reply of Government.—The matter may be represented to the Deputy Commissioner, who says he is writing to the Revenue Commissioner on the subject.

SUBJECT No. 407.

The reduction of the rates of assessment on lands at Resurvey.

Messrs. Anantakesavachar and Payannasetti, Belur Taluk.

Summary of discussion.—For want of timely rains and owing to the depression of coffee industry in the malnad portions of this taluk, the yield of crops is less and arrears of revenue have swelled. The rates of assessment on lands may therefore be reduced at the approaching Resurvey.

Reply of Government.—All interests will be considered when the taluk is taken up for re-settlement. The matter may be awaited.

SUBJECT No. 408.

Additional wells for water-supply to Arsikere town.

Mr. Balavanta Rao, Arsikere Taluk.

Summary of discussion.—It is respectfully solicited that early steps may be taken to sink two additional wells for the supply of drinking water to Arsikere town, where much difficulty is experienced for want of adequate supply of water.

Note.—Intimation of the budget making provision having been received, the subject was withdrawn.

SUBJECT No. 409.

Gomal for Harnahalli village.

Mr. Balavanta Rao, Arsikere Taluk

Summary of discussion.—There are two thousand cattle in the Harnahalli village to which 238 acres of gomal land are allotted for free pasturage. Even according to rules some 400 and odd acres are wanting. About 500 acres of the adjoining Doddenahalli and Belavathahalli forests may be thrown open for free pasturage of the Harnahalli village cattle.

Withdrawn.

SUBJECT No. 410.

Removal of the liquor shop in front of the Girls' school at Arsikere.

Mr. Balavanta Rao, Arsikere Taluk.

Summary of discussion.—Of late a liquor shop has been opened in front of the Government Girls' School in the bazaar street which is most objectionable from whatever side it is viewed. Its immediate removal is therefore solicited.

Reply of Government.—The Deputy Commissioner can dispose of the matter in his discretion.

SUBJECT No. 411.

A Sub-Taluk at Grama.

Mr. Varada Iyengar, Hassan Taluk.

Summary of discussion.—The Government may be pleased to locate a Sub-Taluk at Grama.

Reply of Government.—No change is called for.

SUBJECT No. 412.

Clearance of silt in Kattinkere of Hassan town and construction of anes across water-courses leading into it.

Mr. Venkatarangaiya, Hassan Municipality.

Summary of discussion.—The accumulation of silt in the Kattinkere tanks which are feeders to the Devagere tank, the only source of drinking water-supply in the Hassan town, may be cleared out and dams constructed across water-courses leading to these feeder tanks to prevent accumulation of silt in them.

Reply of Government.—The Deputy Commissioner reports that provision has been made in the current year's Hassan Town Municipal budget for removing silt from one of these tanks most in need of the same. The question of constructing anes across the water-courses leading to these tanks will be considered when more Municipal funds are available.

SUBJECT No. 413.

Raising the ane at Malali near Grama.

Mr. Varada Iyengar, Hassan Taluk.

Summary of discussion.—The Malali ane near Grama was constructed by Government many years ago at a cost of Rs. 9,000. Two channels of five and three miles in length are drawn from the ane. As the ane, however, is on a lower level than the channels, there is difficulty in the supply of water to fields and in consequence many lands lie waste and the raiyats are put to loss. The Government may therefore be pleased to raise the ane which while supplying water to lands already in occupation will also help to bring other lands under wet cultivation.

Reply of Government.—The matter may be represented to the Deputy Commissioner.

SUBJECT No. 414.

Construction of an ane across the Yagachi river near Karagada.

Mr. Anantakesavachar, Belur Taluk.

Summary of discussion.—When the construction of an ane across the Yagachi river near Karagada was represented last year, the Government noted it for consideration. No orders appear yet to have been received by the Public Works Department in the matter. As its construction will be of great help in removing hardship both of men and cattle of Belur and Chikmagalur Taluks and as it would also be a source of additional revenue to Government, the work may be ordered to be taken in hand soon.

Reply of Government.—This project was investigated and finally abandoned.

SUBJECT No. 415.

Opening out a channel to new Kudlur anikat.

Mr. Anantakesavachar, Belur Taluk.

Summary of discussion.—On representation last year the Government were pleased to reply that a project amounting to Rs. 69,997 had been sanctioned and placed on the famine programme till funds were available. As it is difficult to procure food grain for the past one year, it would be a great advantage to begin the work.

Reply of Government.—There is no prospect of the required funds for the work becoming available for several years to come.

SUBJECT No. 416.

Raising the Changravalli anikat.

Mr. Narana Iyengar, Hassan Taluk.

Summary of discussion.—As the present supply of water from the Changravalli channel is insufficient near the fourth mile of the channel course, great inconvenience is caused to the raiyats. The anikat may therefore be raised by one foot and more water let into the channel. At the seventh mile the channel falls into the big Chikkanahalli tank from whence the channel is continued further. The channel may be made to run higher up the tank which, while relieving the raiyats of their inconvenience, will bring the tank bed under cultivation.

Reply of Government.—Will be referred to the Public Works Department for investigation.

SUBJECT No. 417.

Construction of a bridge across the Hemavati near Gorur.

Messrs. Suryanaranappa and Venkatramaiya of Arkalgud Taluk and Mr. Lakshmiparasimhachar, Hassan Taluk.

Summary of discussion.—When the construction of a bridge across the Hemavati near Gorur in the Hassan-Arkalgud road was represented last year, the Government were pleased to state that the matter would be referred to the District Boards of Hassan and Mysore. As Hassan is the district head-quarters of Arkalgud Taluk, there is a great traffic on this road. Moreover by the sinking of platform boats and ferry baskets in the river people have greatly suffered. Construction of the bridge may therefore be ordered early.

Reply of Government.—This bridge is not as urgent as others entered in the approved programme of bridge-building, and there is no prospect of the work being taken up for some years.

SUBJECT No. 418.

Construction of a bridge across a backwater near the Cauvery at Kerlapur.

Messrs. Suryanaranappa and Venkatramaiya of Arkalgud Taluk.

Summary of discussion.—The construction of a bridge across the Cauvery at Kerlapur on the Hampapur-Fraserpet road was prayed for last year, when it was stated that the matter would be referred to the District Board. Orders may be passed for its early construction as during the floods it is a source of great impediment to traffic.

Reply of Government.—The matter is stated to have been referred to the Public Works Department by the District Board. The Executive Engineer's report may be awaited.

SUBJECT No. 419.

Repairs to the Arkalgud-Ilwal Local Fund road.

Messrs. Suryanaranappa and Venkatramaiya of Arkalgud Taluk.

Summary of discussion.—The annual repairs of the Arkalgud-Ilwal Local Fund road, which runs *via* Halli-Mysore and Bherya and joins the Ilwal road may be undertaken by the Public Works Department as represented last year.

Reply of Government.—The Deputy Commissioner states that there is no provision this year, and that the

matter will be considered at the next budget meeting to the Board.

SUBJECT No. 420.

Water-supply to Arkalgud town.

Messrs. Suryanaranappa and Venkatramaiya, Arkalgud Taluk.

Summary of discussion.—Want of water is greatly felt by the people of both fort and Petta of Arkalgud town, and orders may therefore be passed for suppling the town with water through pipes from the Ramenahalli tank as represented last year.

Reply of Government.—This is under investigation in the Public Works Department.

SUBJECT No. 421.

Water-supply to Hassan town.

Messrs. Venkatarangaiya and Shroff Dharanappa, Hassan Municipality.

Summary of discussion.—The ane across the Badari (Yagachi) river may be re-constructed and a channel opened, water from which may be supplied to Hassan town by means of pipes. It would be of great help to the people and would also be a source of good revenue to Government as it would irrigate a large tract of land.

Reply of Government.—When the project was once before Government in 1898, the Government promised a grant of Rs. 52,000, and a loan of Rs. 40,000 repayable in thirty-five years. To this the Municipality consented. The result of this offer will be ascertained.

SUBJECT No. 422.

Construction of a compound wall round the Devagere tank at Government cost.

Messrs. Venkatarangaiya and Shroff Dharanappa, Hassan Municipality.

Summary of discussion.—By the demolition of the fort wall to the west of Devagere tank, which is at present the only source of drinking water-supply to the town, the rubbish of the town is being washed into the tank. As the resources of the Municipality are inadequate, Government may be pleased to give a grant for the construction of a compound wall of brick and mortar round the tank.

Reply of Government.—This is a matter for the Municipality to consider.

SUBJECT No. 423.

A Railway line from Arsikere to Hassan.

Mr. Chennakesava Setty, Hassan Taluk.

Summary of discussion.—The construction of a Railway line from Arsikere to Hassan may be taken up early. The matter was noted by Government on previous representations.

Reply of Government.—Noted.

SUBJECT No. 424.

A new temple for the northern extension of the Hassan town.

Messrs. Venkatarangaiya and Shroff Dharanappa, Hassan Municipality.

Summary of discussion.—The Government may be pleased to sanction the construction of an Iswara temple at Government cost in the northern extension of the Hassan town.

Reply of Government.—This matter has already been disposed of (*vide* Government Order No. 1767, dated 7th October 1905). Government cannot undertake such a work. It is one to be undertaken by persons interested from their own private contributions.

SUBJECT No. 425.

Repairing the Umamaheswaraswami temple at Mallipatna.

Messrs Suryanaranappa and Venkatramaiya, Arkalgud Taluk.

Summary of discussion.—Orders may be passed for the speedy repair of the temple of Sri Umamaheswaraswami at Mallipatna, which is badly in need of repairs, as represented last year. The officer who conducted the Jamabandi of 1904-05 promised to direct the preparation of an estimate.

Reply of Government.—The people appear to have made a private contribution. There has been too much delay in the preparation of an estimate for the necessary repairs. The disposal of the matter will be expedited.

SUBJECT No. 426.

Repairing the temples of Sri Neelakanteswaraswami and Lakshminarasimhaswami at Hole-Narsipur.

Mr N. Venkataramaiya, Hole-Narsipur Municipality.

Summary of discussion.—The repairs and additions to the temples of Sri Neelakanteswaraswami and Lakshminarasimhaswami at Hole-Narsipur, for which estimates and plans are being prepared from a very long time, may be ordered to be expedited.

Reply of Government.—The Deputy Commissioner may be petitioned on the subject.

SUBJECT No. 427.

Annachattram at Hole-Narsipur.

Messrs. G. Subba Rao and Venkatachar, Hole-Narsipur Taluk.

Mr. N. Venkataramaiya, Hole-Narsipur Municipality.

Summary of discussion.—As there is no Annachattram at Hole-Narsipur, early orders may be passed for opening a chattram as travellers are experiencing immense difficulty.

Reply of Government.—The Government have in their Order No. 1283, dated 8th September 1905, intimated that it is not possible either to construct or open a chattram at Hole-Narsipur. This order cannot be reconsidered.

SUBJECT No. 428.

Dharmadarsis for the Sanskrit Pathasala attached to the Sri Uttaradi Matt.

Messrs. G. Subba Rao and Venkatachar, Hole-Narsipur Taluk.

Summary of discussion.—Dharmadarsis may be appointed to supervise the affairs of the Sanskrit Pathasala attached to the Sri Uttaradi Matt.

Reply of Government.—The Matt is under Government management. The appointment of Dharmadarsis is unnecessary.

SUBJECT No. 429.

The construction of an Annachattram at Belur.

Mr Anantakeswachar, Belur Taluk.

Summary of discussion.—The construction of a chattram at Belur may be expedited.

Reply of Government.—The Government is unable to build a chattram. One Mr. Kesavadasiengar is stated to have offered a house of his for the purposes of the chattram, and the matter is now before the Deputy Commissioner.

SUBJECT No. 430.

Transfer of Gandasi Chattram to Arsikere.

Mr. Balavant Rao, Arsikere Taluk.

Summary of discussion.—The transfer of the Gandasi chattram to Arsikere may be ordered early as promised last year.

Note.—Final orders having already been passed regarding the transfer, the member thanked the Government.

SUBJECT No. 431.

Rangacharlu's Chattram at Arsikere.

Mr. Chowdaiya, Arsikere Taluk.

The member was absent but Mr. Balavant Rao spoke.

Summary of discussion.—The chattram which was built by public subscription in memory of the late Dewan Rangacharlu and which was subsequently handed over to Government management, has been rented out. Orders are solicited therefore for setting apart the chattram exclusively for the convenience of travellers.

Reply of Government.—The Deputy Commissioner says that he has issued instructions not to permit the permanent occupation of any portion of Rangacharlu's chattram even on payment of rent. He will be asked to see that his order is strictly carried out.

SUBJECT No. 432.

Regular payments of Devadaya cash grants annually in the Manjarabad Taluk

Mr. Siddegowda, Manjarabad Taluk.

Summary of discussion.—During the Survey Settlement the Devadaya Inam grants in the Manjarabad Taluk were made payable in cash. Consequent on the delay that is caused for obtaining the Muzrai Secretary's sanction, payments are usually made after a lapse of one or two years. Arrangements may, therefore, be ordered for payments being made every year.

Reply of Government.—The Deputy Commissioner has already taken notice of this matter and issued proper instructions for making payments promptly.

SUBJECT No. 433.

Construction of the Installation Chattram in Saklespur Town.

Mr Malali Venkatramaiya, South Mysore Native Planters' Association.

Summary of discussion.—Native coffee planters and other gentlemen have enthusiastically subscribed for the construction of an Installation Chattram at Saklespur and Rs. 2,000 have been deposited in the Taluk Treasury. Timber and tiles valued at Rs. 700 have also been collected and kept near the Taluk Cutcherry. A site has been selected and a respectable gentleman has also laid the foundation stone. As the uncollected balance of the amount subscribed is not likely to be forthcoming, the chattram might be constructed after obtaining a contribution from the Municipal or Local Funds, if necessary, as the construction of such a building would meet a great want felt at present by travellers.

Reply of Government.—The matter may be represented to the Deputy Commissioner.

SUBJECT No. 434.

Repairs to and the construction of a Vimana for the temple of Sri Channakesavaswami at Belur.

Mr. Anantakesavachar, Belur Taluk.

Summary of discussion.—As stated last year in reply, the Government may be pleased to take up the necessary repairs to the Belur temple soon and the construction of the Vimana may also be ordered early.

As the temple is one of the most beautiful architectural buildings fit for preservation as that of Halebid, the Government may be pleased to order the cost of its annual repairs being met by the Provincial Funds as in the case of Halebid temple.

Reply of Government.—The Chief Engineer will be asked whether he cannot send Mr. Raghavalu Naidu to prepare an estimate.

KADUR DISTRICT.

SUBJECT No. 435.

The Munsiff's Court at Yedahalli.

Mr. Kigga Chennakesava Rao of Koppa Taluk.

Summary of discussion.—1. It is rumoured that the Yedahalli Munsiff's Court will be transferred to Tarikere on the ground that the place is unhealthy. Yedahalli is sufficiently distant from Kigga, Megunda, Baggunji and

Hoskere hoblis, situated as they are at a distance of 35 to 40 miles from the Munsiff's Court. The transfer of the Court to Tarikere would be still more inconvenient to parties as well as to pleaders, who are permanent residents of Yedahalli. It is requested that the Munsiff's Court may be permanently located at Yedahalli.

2. A few hoblis of the Tirthahalli and Chikmagalur Taluks may be included in the jurisdiction of the Yedahalli Munsiff's Court and the Munsiff appointed a Second Class Magistrate permanently.

Reply of Government.—The Yedahalli Court will remain where it is. No change is contemplated.

SUBJECT No 436.

Abolition of the Subordinate Judge's Court at Chikmagalur or the reduction of its small cause jurisdiction to Rs. 100.

Mr. S. R. Balakrishna Rao, B.A., LL.B., Advocate, Shimoga Municipality.

Summary of discussion.—Since a Subordinate Judge's Court has been established at Shimoga, there is no necessity for a Sub-Judge's Court at Chikmagalur ; and so the same may be abolished ; or if that cannot be done, its small cause jurisdiction may be reduced to Rs. 100 as in Shimoga.

Reply of Government.—Not expedient. The present arrangements were made after full consideration only a short time ago. When a new Sub-Judge is sent, the small cause jurisdiction will be reduced.

SUBJECT No. 437.

Drainage scheme of the Chikmagalur town.

Mr. G. Abdul Khalik of the Chikmagalur Municipal Board (absent), but others spoke for the member.

Summary of discussion.—The drainage scheme of the Chikmagalur town may be taken in hand in connection with the other improvements that are being effected, as it is necessary for improving the sanitary condition of the town.

Reply of Government.—This project is now under preparation. The Deputy Commissioner says that the surveying will be completed in about six months.

SUBJECT No. 438.

Sale of the right of collecting market fees and cattle-pound fees in the town of Tarikere.

Mr. Sivappa Gowda of the Tarikere Municipal Board.

Summary of discussion.—It is requested that the right of collecting market fees at Tarikere on cart-loads and head-loads may be sold annually by public auction, as also the right of collecting fees in the cattle-pound. This saves the trouble of maintaining an establishment for the purpose and prevents annoyance to the people.

Reply of Government.—Selling the cattle-pounds is opposed to general principles and cannot be sanctioned. The right of collecting market fees is being sold.

SUBJECT No. 439.

Locating a permanent dispensary at Balur.

Mr. Javali Ganesh Rao, member, Kadur District Board.

Summary of discussion.—A permanent dispensary may be located at Balur as Mudgere is 14 miles from it and sickness is on the increase.

Reply of Government.—The question of the retransfer of Hariharpur Dispensary to Balur will be considered. The Deputy Commissioner and the Senior Surgeon will be consulted.

SUBJECT No. 440.

Repair of the Ramanahalli Channel.

Mr. C. Srinivasa Rao of Chikmagalur Taluk.
The member was absent but others spoke.

Summary of discussion.—The Ramanahalli Channel may, it is requested, be repaired.

Reply of Government.—The Chief Engineer will be asked to expedite this matter.

SUBJECT No. 441.

Extension of the Bababudan Hill road.

Mr. C. Srinivasa Rao of Chikmagalur Taluk.
The member was absent but others spoke.

Summary of discussion.—The Bababudan Hill road may be extended towards the Pandarvalli village so as to meet the Yedahalli road.

Reply of Government.—Noted.

SUBJECT No. 442.

Repair of the Vastara tank.

Mr. A. Shama Rao of the Chikmagalur Taluk.

Summary of discussion.—It is requested that the Vastara tank may be repaired.

Reply of Government.—The project is making progress as the Deputy Commissioner states.

SUBJECT No. 443.

Water-supply to Mudgere.

Messrs. Sabju Sab and Timmasetti of Mudgere Taluk.

Summary of discussion.—Scarcity of water is still felt by the people of Mudgere, although two wells have been excavated by Government. The wells dry up in summer and the halla is half a mile from the town. It is therefore requested that arrangements may be made to supply water to Mudgere by means of pipes.

Reply of Government.—Will be investigated.

SUBJECT No. 444.

Construction of an anekat across the Bijuvalli halla.

Messrs. Sabju Sab and Timmasetti of Mudgere Taluk.

Summary of discussion.—The Bijuvalli halla, which is half a mile distant from Mudgere, discharges into the Hemavati river. An anekat across it near Kaduvalli will bring a large area of land under wet cultivation.

Reply of Government.—Will be referred to the Public Works Department for investigation.

SUBJECT No. 445.

Construction of a bridge across the Bijuvalli halla.

Messrs. Sabju Sab and Timmasetti of Mudgere Taluk.

Summary of discussion.—The Bijuvalli halla, which runs across the Mudgere-Belur road, is unfordable for six months in the year. It is requested that a bridge may be built over it.

Reply of Government.—This may be represented to the District Board.

SUBJECT No. 446.

Construction of a foot-bridge across the Hemavati near Phalguni.

Messrs. Sabju Sab and Timmasetti of Mudgere Taluk.

Summary of discussion.—A foot-bridge of iron may be built across the Hemavati river near Phalguni village for the benefit of the villagers owning lands on both sides of it, as well as of the people resorting to the Padmavatamma temple.

Reply of Government.—Will be referred to the District Board for consideration.

SUBJECT No. 447.

Restoration of the Baguvalli tank.

Mr. U. Guru Rao of Tarikere Tk.

Summary of discussion.—The restoration of the Baguvalli tank in the Tarikere Taluk was prayed for last year. No rain has hitherto fallen in these parts and famine is likely to appear. People and cattle are sufferinntwag for

of food and fodder. The restoration of the tank will be a boon to the raiyats.

Reply of Government.—The project is under consideration in the Public Works Department.

SUBJECT No. 448.

Repair of the Ramanaikankere tank.

Messrs. Attiganal Shamanna, Baba Sahib and Nandi Abdul Khadar Sahib of Tarikere Taluk.

The members were absent but others spoke.

Summary of discussion.—There are seven major tanks around Tarikere. In consequence of these tanks not receiving a sufficient supply of water, the wet and garden lands depending on them do not receive a sufficient supply of water and the consequence is that both the Government and the raiyats suffer. It is therefore requested that (1) Ramanaikankere may be restored and water led to it from Kalhattitirtha and (2) the Bhagavatikatte and Sunnadakere tanks may be repaired and water led from them to Ramanaikankere. This will have the effect of supplying water to all the tanks. The project has been investigated by the Public Works Department and only awaits sanction.

Reply of Government.—*Vide* Subject No. 449.

SUBJECT No. 449.

Water-supply to Tarikere.

Messrs. Sivappa of the Tarikere Municipal Board and U. Guru Rao of Tarikere Taluk.

Summary of discussion.—It is requested that water may be supplied to Tarikere by means of pipes. The Ramanaikankere tank may be restored and water from the Kalhattitirtha led to it through the Nagannanakere as also from Sunnadakere and Bhagavatikatte tanks and thence supplied to Tarikere. An estimate has been prepared and the proceedings of a meeting of the townspeople regarding the contribution payable therefor has also been sent up, but the work has not yet been taken in hand.

Reply of Government.—This and Subject No. 448 will be considered along with the next budget.

SUBJECT No. 450.

Water-supply to Chikmagalur.

Messrs. B. Janardanaiya and G Abdul Khalik of the Chikmagalur Municipal Board.

Summary of discussion.—The reservoir near the town of Chikmagalur can supply good filtered water for only eight or nine months in the year. During the hot months dirty water is led into the pipes. To ensure a sufficiently good supply of filtered water all round the year, it is requested that an anekat may be constructed across Bhutanvare and water conducted to the reservoir which may also be enlarged.

Reply of Government.—This will be enquired into early.

SUBJECT No. 451.

Repairing the Mahomedan musafirkhana at Chikmagalur.

Mr. G. Abdul Khalik of the Chikmagalur Municipal Board.

The member was absent but others spoke.

Summary of discussion.—The Mahomedan musafirkhana at Chikmagalur was erected after the model of the ancient Bijapur buildings at a cost of Rs. 30,000, and handed over to the care of the Municipality. This is the only building suited for the better class of Mahomedans to put up. For the last few years the building has been in disrepair; and unless immediate steps are taken to repair and preserve the

building, it will be completely lost to the town. Frequent representations were made by the townspeople to the local authorities, but nothing has been done.

Reply of Government.—The Deputy Commissioner says that the Executive Engineer has been requested to prepare an estimate to put the building in good repair and a sum of Rs. 1,057 is provided in the current year's Municipal budget.

SUBJECT No. 452.

The Amildar of Mudgere Taluk to hold Court at Kalasa.

Mr. Javali Ganesh Rao, member, Kadur District Board.

Summary of discussion.—The Amildar of Mudgere may be ordered to hold his Court for one or two days in a month at Kalasa as it is forty miles distant from Mudgere and contains the famous temple of Sri Kalaseswaraswami.

Reply of Government.—The Deputy Commissioner says that the Amildar may be required to camp at Kalasa for three days in each month and attend to business connected with the hobli. The Revenue Commissioner agrees with the Deputy Commissioner. An order will be given accordingly.

SUBJECT No. 453.

Additional platform at Birur.

Mr. S. R. Balakrishna Rao, B.A., LL.B., Advocate, Shimoga Municipality.

Summary of discussion.—The public are thankful to Government for kindly sanctioning the construction of waiting rooms and platforms at Birur. But the plan made does not seem to satisfy the requirements. What we want is a double platform drawn up on either side of the line. Passengers from one train can thus easily walk on to the other train by going from one side of the platform to the other.

Reply of Government.—The Southern Mahratta Railway Company will be consulted in the matter. This suggestion to have a double platform or rather trains starting on either side of a platform, deserves favorable consideration.

SUBJECT No. 454.

Revision of the Tasdik patti of the Kalasa temple.

Mr. Shanbhog Kalasappaiya of Mudgere Taluk.
The member was absent but others spoke.

Summary of discussion.—Some of the pujas and santarpanes usually performed in the Kalasa temple have been omitted on the ground of insufficient allotment. The Tasdik patti may be revised so as to include such pujas and santarpanes.

Reply of Government.—No pujas and santarpanes were omitted during the revision of the Tasdik patti in 1878. The Muzrai Secretary will, however, inquire into the matter when he visits Kalasa.

SUBJECT No. 455.

Establishment of an Annachattram at Kalasa.

Mr. Shanbhog Kalasappaiya of Mudgere Taluk.
The member was absent but others spoke.

Summary of discussion.—An Annachattram at Kalasa may be established out of the temple funds for the benefit of the many pilgrims resorting to the temple of Sri Kalaseswaraswami.

Reply of Government.—It is not possible to remove any of the existing chattrams in the district, nor does it appear

necessary to have a chattram at Kalasa, considering that the number of pilgrims on ordinary days is reported to be very small. The Muzrai Secretary will, however, enquire into the matter when he visits the place.

SUBJECT No. 456.

Increase of pay to the Kalasa temple establishment.

Mr. Shanbhog Kalasappaiya of Mudgere Taluk.
The member was absent but others spoke.

Summary of discussion.—It is requested that an increase of pay may be sanctioned to the Kalasa temple establishment.

Reply of Government.—The Muzrai Secretary will inquire into the matter when he visits the place.

SUBJECT No. 457.

Repair of the Khandya temple.

Mr. A. Shama Rao of Chikmagalur Taluk.

Summary of discussion.—The Khandya temple in the Chikmagalur Taluk may be restored.

Reply of Government.—Work to the extent of Rs. 529-6-6 has already been carried out. The complete restoration of the temple is estimated to cost about Rs. 3,000, but there are no funds at its credit. As the member, however, states that Kalasa and Khandya being one, the same funds may be used for both, the Muzrai Secretary will be asked to investigate the matter.

SUBJECT No. 458.

Restoration of the Hemavati temple.

Mr. Javali Ganesha Rao, member, Kadur District Board.

Summary of discussion.—The Hemavati temple in the Mudgere Taluk may be restored.

Reply of Government.—Repairs to the extent of Rs. 665 have already been carried out on an estimate sanctioned in 1903 The member says that there is still some work to be done, not likely to cost more than about Rs. 200. The Muzrai Secretary will be asked to inquire into this matter.

SUBJECT No. 459.

Establishment of an Annachattram at Koppa.

Mr. Kigga Channakesava Rao of Koppa Taluk.

Summary of discussion.—The matter of establishing an Annachattram at Koppa was brought before the Assembly last year, but the Deputy Commissioner was of opinion that the leading inhabitants of the place had agreed to raise funds and build a rest-house for travellers and that a site had been given them for the purpose. It is true that a site was prayed for some four years ago. Owing to the partial failure of the areca-nut crop, all the leading inhabitants suffered and consequently the proposal was deferred and the fact recorded. It is therefore prayed that an Annachattram at Balagadi, where the public offices are located, may be established by transferring one from elsewhere or instituting a new one.

Reply of Government.—Funds do not permit the establishment of a chattram.

SUBJECT No. 460.

Restoration of the Phalguni temple.

Mr. Javali Ganesha Rao, member, Kadur District Board.

Summary of discussion.—The Phalguni temple in the Mudgere Taluk may be restored.

Reply of Government.—The matter may be represented to the Deputy Commissioner.

SHIMOGA DISTRICT.

SUBJECT No. 461.

The Munsiff's Court at Yedahalli to be located at Tirthahalli.

Mr. Samaga Subbarayabhatta, Tirthahalli Taluk.

Summary of discussion. It would appear that the Munsiff's Court at Yedahalli will be located at Tarikere. Tarikere is nearer to Shimoga and is connected by rail and therefore it is requested that the Munsiff's Court at Yedahalli may be located here (at Tirthahalli) as it is nearer to Koppa which has got comparatively a large number of litigant population.

Reply of Government.—There is no intention to remove the Court at Yedahalli.

SUBJECT No. 462.

Re-establishment of the Munsiff's Court at Honnali.

Mr. N. Ranga Rao, Honnali Taluk

Summary of discussion.—This Munsiff's Court was in existence for over twenty-two years at Honnali, and it has now been transferred to Chitaldrug. It was very inconvenient to the people of Davangere and Shikarpur taluks when the Munsiff's Court was at Honnali. The people of His Majesty's Territories residing in Ranebennur and Kod taluks were also resorting to it. Orders may therefore be passed to re-establish a Munsiff's Court at Honnali.

Reply of Government.—The different aspects of the question were fully considered before the change was ordered in December last. Nothing more can now be done.

SUBJECT No. 463.

Shimoga drainage and water-supply schemes.

Mr. S. R. Balakrishna Rao, B.A., LL.B., Advocate, Shimoga Municipality.

Summary of discussion.—The town of Shimoga is in need of both water-supply and drainage schemes. The latter is a greater necessity than the former. The unhealthiness of the place is due more to bad or no drainage system than to want of good water-supply. The situation of the town is very unfavourable for natural drainage, and so there is no hope for the improvement of the town if both these schemes or at least drainage is not introduced at an early date.

Reply of Government.—This project is under preparation by a special establishment and is progressing satisfactorily. There is an allotment of Rs. 30,000 for it in the current year's civil budget.

SUBJECT No. 464.

Local Fund Dispensary.

Mr. S. R. Balakrishna Rao, B.A., LL.B., Advocate, Shimoga Municipality.

Summary of discussion.—Local Fund Dispensaries may be established at Holehonnur in the Shimoga Taluk and Basavapatna in the Channagiri Taluk. The Hospital Assistant of Benkipur visits the former place twice a week and the cost of such visits is about Rs. 45 a month, *i.e.*, nearly as much as the cost of maintaining a dispensary. Native physicians trained in the Mysore Hindu Vaidyasala may be appointed in important villages which are more than six miles away from a dispensary.

Reply of Government.—This will be looked into.

SUBJECT No. 465.

Shimoga Students' Home.

Mr. S. R. Balakrishna Rao, B.A., LL.B., Advocate, Shimoga Municipality

Summary of discussion. The Government may be pleased to construct a Students' Home at Shimoga. The rent paid for the present building is Rs. 30 a month, a sum equal to the interest on nearly Rs. 12,000. Moreover the building is not a very convenient one.

Reply of Government.—This is a question of funds.

SUBJECT No. 466.

Accommodation for Lingayets in the Students' Home at Shimoga.

Mr. Maridevara Gurusiddaiya, Honnali Taluk.

Summary of discussion.—There is no arrangement to feed the Lingayet students in the Shimoga Students' Home. For this reason many Lingayet students cannot go to Shimoga for their education. Though the number of Lingayet students in the High School is not much, the number in the Normal School is large; and therefore arrangements may be made to provide Lingayet students with meals in the Shimoga Students' Home.

Reply of Government.—The attention of the Inspector-General of Education will be called, and he will be asked to ascertain if the want is real, and take the necessary action.

SUBJECT No. 467.

Re-establishment of the Shimoga College, or opening an Industrial School.

(*a*) Mr. S. R. Balakrishna Rao, B.A., LL.B., Advocate, Shimoga Municipality; Mr. C. Subba Rao, B.A., B.L., Advocate, Nagar Sabha; (*b*), Mr. S. R. Balakrishna Rao, B.A., LL.B., Advocate, Shimoga Municipality; (*c*) Mr. Maridevara Gurusiddaiya, Honnali Taluk; Mr. A. Narasimha Iyengar, Sagar Taluk.

Summary of discussion.—(*a*) A College may be re-established at Shimoga. The savings do not come up to Rs. 12,000 a year as contended. A comparative statement of the establishment charges of the late Shimoga College with those of the High Schools of Hassan and Tumkur shows that the excess cost in the former was about Rs. 2,000 or 3,000 a year. Moreover, Mr. King was getting latterly twice as much as he was getting when he first came to Shimoga in (1881-82). He was getting only Rs. 250 then.

If the Government are not disposed to re-establish a College now, they may at least open an Industrial School (carpentry, smithery, rattan work, sandal carving, glass and iron smelting, etc.).

(*b*) If the Government promise to meet a proportion of the cost of maintaining a College at Shimoga, attempts will be made to raise funds for the same.

(*c*) The abolition of the College at Shimoga has been found too inconvenient by the public of Shimoga, Chitaldrug and Kadur Districts and so the College may be re-established.

Reply of Government.—The Inspector-General's attention will be drawn to the representation regarding the establishment of an Industrial School.

SUBJECT No. 468.

Sanskrit Pathasala at Shimoga.

Mr. S. R. Balakrishna Rao, B.A., LL.B., Advocate, Shimoga Municipality; Mr. C. Subba Rao, B.A., B.L., Advocate, Nagar Sabha.

Summary of discussion.—Mr. T. Venkatappa who has made a gift of Rs. 30,000 for a chattram may be induced to allot a portion of this sum for a Pathasala, if the Government are pleased to give interest at the rate of five per cent on the amount he has already invested.

Reply of Government.—The settlement of the general question may be awaited.

SUBJECT No. 469.

Improvements to the Anglo-Vernacular School at Shimoga.

Mr. S. R. Balakrishna Rao, B.A., LL.B., Advocate, Shimoga Municipality; Mr. C. Subba Rao, B.A., B.L., Advocate, Nagar Sabha.

Summary of discussion.—(*a*) The site in close proximity of the school on which the sheds and huts stand may be converted into a play-ground.

(*b*) A tiffin-room may be constructed.

(*c*) A permanent water-man may be engaged.

(*d*) A latrine may also be constructed.

Reply of Government.—The work is necessary. The Inspector-General of Education will be asked to revise the budget and show some appropriation.

SUBJECT No. 470.

Oil-engines to lift water.

Mr. S. R. Balakrishna Rao, B.A., LL.B., Advocate, Shimoga Municipality; Mr. C. Subba Rao, B.A., B.L., Advocate, Nagar Sabha.

Summary of discussion.—As an experimental measure, oil-engines may be supplied to raiyats in Shimoga to lift water from Tunga river for irrigation purposes. If this proves to be useful and economical, the same may be done on a large scale.

Reply of Government.—The Deputy Commissioner is now considering this subject. He will be asked to expedite his reply.

SUBJECT No. 471.

Agricultural Bank at Nyamti

Mr. Maridevara Gurusiddaiya, Honnali Taluk.

Summary of discussion.—The entire amount of loan granted to the Agricultural Bank has been ordered to be recovered by coercive measures; but owing to plague and other causes, raiyats have become poor and therefore it is requested that some concession may be shown to this bank as has been done in the case of some banks established for the help of Coffee Planters. The amount of loan advanced by Government can be recovered at any time by selling the property hypothecated to Government.

Reply of Government.—Let the members of the bank concerned make the representation, when it will be considered.

SUBJECT No. 472.

Kandayam of wet lands under the Sogilu Channel.

Mr. Maridevara Gurusiddaiya, Honnali Taluk.

Summary of discussion.—It has been brought to the notice of Government that the crops under the Sogilu Channel failed last year for want of water. This year also on account of absence of rain and want of water in the channel, some have sown dry grains and others have left their lands fallow. It is therefore requested that the assessment of these lands for last year as well as this year should be remitted. If the entire assessment cannot be remitted, the water tax at least may be ordered to be remitted.

Reply of Government.—The matter may be represented to the Deputy Commissioner.

SUBJECT No. 473.

Clearance of silt in the Sogilu anekat.

Mr. Maridevara Gurusiddaiya, Honnali Taluk.

Summary of discussion.—Since the construction of the Sogilu Anekat no silt has been removed from it and therefore water does not flow freely even when the rains are ample. The raiyats having found it difficult to execute this work, they represented to the Deputy Commissioner, who ordered that if the raiyats were to pay towards the charges of removing silt at the rate of four annas per acre it would be done through Government agency. This has been agreed to by the raiyats. If the work is to be commenced after the amount is collected much loss will be incurred. It is therefore requested that the work may be taken in hand and the amount promised by the raiyats collected along with kandayam.

Reply of Government.—The Deputy Commissioner will be asked to expedite his report.

SUBJECT No. 474.

An embankment to be constructed across the Chatnahalli halla.

Mr. Maridevara Gurusiddaiya, Honnali Taluk.

Summary of discussion.—If an embankment is constructed across the Chatnahalli halla and the water is turned towards the Sogilu channel, water will be available in Sogilu channel even during the dry season. The work in question will not cost much, but will be very useful, and therefore it may be ordered to be taken in hand at an early date.

Reply of Government.—The big Sogal project has been sanctioned, and is under progress.

SUBJECT No. 475.

Dispensary building for Nyamti.

Mr. Maridevara Gurusiddaiya, Honnali Taluk.

Summary of discussion.—The newly opened dispensary is now located in the musafirkhana at Nyamti. This causes inconvenience to the travellers, and therefore a building may be ordered to be constructed.

Reply of Government.—The work will be taken up as funds become available.

SUBJECT No. 476.

Octroi duty to be imposed on piece-goods in Doddethinahalli village.

Mr. Maridevara Gurusiddaiya, Honnali Taluk.

Summary of discussion.—Much of the cloth trade that was being carried on at Nyamti is now transferred to Doddethinahalli village and consequently the Municipal revenue of Nyamti town and the income of the merchants has been seriously affected. It is under consideration to make Doddethinahalli a Village Union. Orders may be passed to impose octroi duty on piece-goods sold at that village.

Reply of Government.—This matter will be enquired into by the Deputy Commissioner, and a report submitted with reference to local circumstances.

SUBJECT No. 477.

A road to Tirtharameswara near Belaguthi.

Mr. Maridevara Gurusiddaiya, Honnali Taluk.

Summary of discussion.—Tirtharameswara near Belaguthi is a place of pilgrimage and many people from various parts visit the place every day, but there is no good road leading to it. The present road causes inconvenience to the travellers. It is therefore requested that the jungle road from Sowlunga road *via* Muglehalli and Belaguthi may be converted into a regular road. The opening of this road will also be useful to the people of Belaguthi which is growing in importance.

Reply of Government.—This matter may be represented to the District Board.

SUBJECT No. 478.

Reconstitution of the Honnali Taluk.

Mr. Maridevara Gurusiddaiya, Honnali Taluk.

Summary of discussion.—Honnali Taluk, though a small one, has got as large an establishment as any other taluk. The Kumsi Sub-Taluk consits only of Kumsi and Harnhalli hoblis and these may be added on to the Honnali Taluk; and Kundur Magni of the Honnali Taluk may be taken away and attached to the Channagiri Taluk. If the Taluk Office is then transferred to Nyamti, it will be very advantageous as Nyamti is a trading centre and a central place to all the other places in the Taluk.

Reply of Government.—This is not expedient.

SUBJECT NO. 479.

Restoration of Tirugani Maduvu Anekat.

Messrs. Sivappa Dikshit, Ameen Krishnappa, Shikarpur Taluk.

Summary of discussion.—The restoration of Tirugani Maduvu Anekat is a necessity. Early orders may be issued on the subject.

Reply of Government.—The restoration of the old Tirugani Maduvu Anekat was upon investigation found to be undesirable and abandoned, as the site was a very bad one. Another project for a reservoir lower down the stream is under investigation. Further action will be taken early as people thereabouts are very anxious to have it.

SUBJECT NO. 480.

Capture of wild elephants.

Messrs. Devappa, Shikarpur Taluk, and Venkatachar, Shikarpur unicipality.

Summary of discussion.— Wild elephants are destroying the produce and are troubling the passengers on their way, and therefore orders may be issued for capturing these elephants. These elephants are also destroying the Bagani trees in the jungles.

Reply of Government.—The Conservator of Forests will be asked to consider what can be done in the matter.

SUBJECT NO. 481.

Police Jamadar to be retained at Nagar.

Mr. Sahukar C. Nagappa, and Manja Uduparu, Nagar Taluk.

Summary of discussion.—Nagar was the head-quarters of the taluk and since its transfer there is a Police Jamadar. It appears that the Jamadar will be replaced by some officer of lower rank. This a place very near to the ghat and there are many houses and wealthy persons. It is therefore requested that in the interests of the public, the Police Jamadar may be continued here.

Reply of Government.—The Inspector-General of Police will be asked to call for a definite opinion of the Deputy Commissioner regarding what is wanted for Nagar.

SUBJECT NO. 482.

Sanskrit Patasala for Tirthahalli and Araga.

Mr. Samaga Subbarayabhatta, Tirthahalli Taluk.

Summary of discussion.—Sanskrit is one of the Oriental languages, which is almost dead as there are no Government Patasalas established in this taluk. It is therefore requested that in ordered to revive this language, Sanskrit Patasalas may be ordered to be established at Tirthahalli and Araga.

Reply of Government.—All the Matts may co-operate and have a good Patasala, which may be patronised by Government.

CHITALDRUG DISTRICT.

SUBJECT NO. 483.

Construction of a gokatte in Chitaldrug.

Messrs. Vedanta Iyengar and Dastagir Sab, Municipal Members, Chitaldrug.

Summary of discussion.—On sanitary grounds, the cattle are prohibited of late from going to Thimmannanaikanakere tank in Chitaldrug for water without making due provision for water for the cattle. A gokatte may be constructed for them.

Reply of Government.—The necessity is recognized and money will be found if possible from Local Funds General. An estimate will be called for.

SUBJECT NO. 484.

Construction of a separate musafirkhana at Holalkere.

Mr. Venkataramanappa, Taluk Member, Holalkere.

Summary of discussion.—The eastern portion of the musafirkhana at Holalkere has been rented out to the Amildar of the Taluk for the last six or seven years, while the western portion of the building has been utilized for the

Sub-Division Office of the Public Works Department. Thus, there is no convenient place anywhere in the town for the accommodation of travellers. It is therefore requested that a separate musafirkhana may kindly be built near the wall, just under construction, on the site where weekly *sante* is held.

Reply of Government.—It is not clear why the Amildar has been allowed to occupy a portion of the building constructed for the use of travellers, or why the Sub-Division Office is located in another portion. The President will be asked to call upon the Amildar to vacate the building at once. The Public Works Department office also will be removed.

SUBJECT No. 485.

Construction of a bridge at Kellodu across the Vedavati river.

Messrs. P. Nagappa, Khasim Sab, Hosdurga Taluk, and Gopalaiya, Chitaldrug District Board.

Summary of discussion.—After the formation of Hosdurga Taluk with the addition of the Budihal Hobli of the late Huliyar Sub-Taluk, there has been considerable traffic on the Hosdurga-Huliyar road. But the communication with the villages on the Budihal side is being cut off for days together by the Vedavati river during floods near Kollodu, a distance of four miles from Hosdurga. It is therefore proposed that a bridge may be constructed across the river at the place mentioned above. Though the project is a costly one, it is very necessary to execute the work early both for the convenience of the public and of Government. Tolls may be collected after the completion of the bridge to recoup the amount spent on it.

Reply of Government.—Will be considered when funds are available.

SUBJECT No. 486.

Removal of the Local Fund Dispensary at Harihar to the Anglo-Vernacular School there and the construction of a separate and more spacious building for the latter outside the town

Mr. B. Adivappa, Municipal Board Member, Harihar.

Summary of discussion.—The Local Fund Dispensary at Harihar has been located in a rented building situated in an unsuited locality for the past eighteen years at an annual rent of Rs. 60. People do not freely resort to it for medical aid. As proper Government building is very necessary for the Dispensary, the present Anglo-Vernacular school building, which is not sufficiently accommodative for the purpose, may be utilized for the Dispensary and a more spacious building constructed for the school outside the town. When this representation was made last year, the Government replied that this was a question of funds. Owing to the revision settlement introduced into this Sub-Taluk, there was an increase of six or seven thousand rupees under local and irrigation cesses collected last year on the revised assessment. Therefore the construction of the building may be ordered to be undertaken-the charges being met from the source pointed out.

Reply of Government.—Will be considered as early as funds permit.

SUBJECT No. 487.

Improvement of the sanitation of the town of Harihar by filling up the trenches around the fort in the middle of the town.

Mr. B. Adivappa, Municipal Member, Harihar.

Summary of discussion.—The sanitation of Harihar town may be improved by filling up the trenches around the fort in the middle of the town near the Sub-Taluk Office, the cost of carrying out the improvements being met either from Provincial Funds or from Local Funds General. The work if executed at this time, will give relief to the cooly classes.

Reply of Government.—As the sum of Rs. 2,255 sanctioned last year was credited to the Municipality, the President will be asked to state whether the balance, *viz.*, Rs. 1,617 may be utilized for the purpose indicated by the member.

SUBJECT No. 488.

Levy of loom-tax in Harihar.

Mr. B. Adivappa, Municipal Board Member, Harihar.

Summary of discussion.—By the abolition of the loom-tax, the receipts of the Harihar Municipality have crippled down to the extent of Rs. 600. The imposition of loom-tax in this Municipality may be ordered as a special case to improve its income as the expenditure exceeds the income at present.

Reply of Government.—This cannot be done.

SUBJECT No. 489.

Revival of tax on dhobis carrying on trade in rice.

Mr. B. Adivappa, Municipal Board Member, Harihar.

Summary of discussion.—Under orders of Government, the dhobis carrying on trade in rice in Harihar Municipality were exempted last year from Mohatarfa tax, which they had been paying for a long time, while men of other castes similarly trading are made to pay Mohatarfa tax. These dhobis have given up their profession of washing clothes and taken to trade, and are making much profit thereby. There is no justification in exempting them from taxation to the detriment of Municipal revenues. It is therefore proposed that the taxation on dhobis may be revived.

Reply of Government.—Dhobis enjoy exemption as that profession is not taxable. They pay house tax.

SUBJECT No. 490.

Diversion of the Jalankere tank channel which leads to the river through Brahmapuri.

Mr. B. Adivappa, Municipal Board Member, Harihar.

Summary of discussion.—The water that used to collect in the Jalankere tank at Harihar which was filled up owing to its insanitary condition is led off to the river by a channel through Brahmapuri. The existence of this channel, which is in disrepair, has been a source of much unhealthiness to the inhabitants, and it may therefore be diverted to a portion in the kharab land belonging to the makan at the place.

Reply of Government.—The Public Works Department will be asked to ascertain the cost of the work.

SUBJECT No. 491.

Water convenience to the musafirkhana in Harihar town.

Mr. Srinivasa Rao, Taluk Member, Harihar.

Summary of discussion.—A musafirkhana has been constructed by the Government at Harihar for the use of travellers of all classes. It is requested that water convenience may also be afforded to it.

Reply of Government.—Water-supply to the town is an urgent necessity, and a project is under preparation. Both cholera and plague have been devastating the town.

SUBJECT No. 492.

Water-supply to the town of Harihar.

Mr. Srinivasa Rao, Taluk Member, Harihar.

Summary of discussion.—The population of Harihar town has been very much cut down owing to the constant visitation of plague and other diseases for the last seven or eight years. There are no water facilities both in and outside the town. When people evacuate the town on account of plague and live outside, they suffer very much for want of water. The river water has been condemned by medical authorities as being unfit for drinking purposes owing to the existence of cholera germs in it. The necessity for the execution of water works was represented last year in Subject No. 476 of the Proceedings of the Representative Assembly for 1904. The townspeople of Davangere also pray for water-supply from the river to their town as represented last year in Subject No. 479. The matter may be investigated and the work executed early.

Reply of Government.—*Vide* Subject No. 491.

SUBJECT No. 493.

Remission of the Hulbanni amount, and the increase of the assessment on dry lands in the Holalkere Taluk on account of the failure of rain during 1904-05.

Mr. Gunderi Gopalaiya, District Board Member, Holalkere.

Summary of discussion.—The major portion of the occupied lands is lying waste owing to the failure of rainfall this year in the Holalkere Taluk, and men and cattle are very much distressed for food and fodder. It is therefore requested that the Hulbanni amount and the increase of the assessment on dry lands as per Revision Survey Settlement may be kindly remitted this year.

Reply of Government.—The matter may be represented to the Deputy Commissioner.

SUBJECT No. 494.

Abolition of tax on plots of ground detached from houses in Harihar Sub-Taluk.

Mr. Srinivasa Rao, Sub-Taluk Member, Harihar.

Summary of discussion.—Raiyats in this sub-taluk own plots of ground detached from their houses within the village site for agricultural purposes and for storing fodder for their cattle. The plots of ground were never brought under taxation, but for the last ten years a tax of eight annas to Rs. 1-8-0 has been levied on such grounds. The grievance was represented last year in Subject No. 168. Final orders may be passed for the abolition of the said tax.

Reply of Government.—*Vide* Subject No. 64.

SUBJECT No. 495.

Construction of a building for the Taluk Office at Chitaldrug.

Messrs. Vedanta Iyengar and Dastagir Saib, Municipal Members, Chitaldrug.

Summary of discussion.—The Taluk Cutcherry at Chitaldrug is being held in a rented building for the last four years. It is requested that a new building may be constructed outside the town for the location of the same.

Reply of Government.—Will be considered early.

SUBJECT No. 496.

Special concession to be shown to the raiyats of the Harihar Sub-Taluk owing to the failure of Mungar crops.

Mr. Srinivasa Rao, Taluk Member, Harihar.

Summary of discussion.—Mungar crop is the crop chiefly depended upon in the Harihar Sub-Taluk for the supply of food-grains for people and fodder for cattle. Owing to the failure of timely rains for the sowing of Mungar crops this year, they have totally failed Out-turn of crop last year also was scanty and limited, the yield being estimated only at four to six anna crop. In consideration of the distress the raiyats of the sub-taluk are thus subjected to, both on their own account and on account of their cattle, special concessions should be shown to them for their relief.

Reply of Government.—*Vide* Subject No. 75.

SUBJECT No. 497.

Improvement of the Hosakere tank at Chitaldrug.

Messrs. Vedanta Iyengar and Dastagir Saib, Municipal Members, Chitaldrug.

Summary of discussion.—The Hosakere tank near fresh water Honda at Chitaldrug was constructed long ago at a cost of Rs. 60,000. But the tank dries up soon owing to percolation. It is requested therefore that necessary repairs should be executed to it for the benefit of the people and cattle and for cultivation of lands under it.

Reply of Government.—Will be referred to the Public Works Department for early investigation.

SUBJECT No. 498.

Diversion of Gudihalla into the Tavandi tank in the Hiriyur Taluk.

Mr. Yale Channabasappa, Taluk Member, Hiriyur.

Summary of discussion.—The large tank at Tavandi in the Hiriyur Taluk yields a considerable revenue to Government. It has no means of supply and consequently does not fill. The construction of Kumbarkatte tank across its main feeder has altogether cut off its supply. The gardens under the tank are drying away and the raiyats are sustaining loss on that account. In the year 1884-85 a project was prepared by the Public Works Department for the restoration of the tank and the improvement of water-supply by the diversion into it of Gudihalla or Gowdankatte halla. Only the restoration of the tank was carried out without the proposed diversion, which, it is proposed, may be undertaken and accomplished.

Reply of Government.—A feeder at a very heavy cost is not practicable. Investigation is being made.

SUBJECT No. 499.

Re the proposed breach of the Krishnambudhi tank.

Mr. Yale Channabasappa, Taluk Member, Hiriyur.

Summary of discussion.—On the ground that the Krishnambudhi tank by its proximity to the new town of Hiriyur renders it unhealthy, and on the ground that the lands thereunder could be irrigated by the Marikanave Channel, a proposal to breach this tank and to construct another near Metikurki village is under correspondence. The existence of this tank is in no way injurious to the health of the new town as it has already been abandoned completely. A sum of Rs. 330 is realized from the lands under this tank, which has been very useful for cultivation, as it receives its supply even from ordinary rains. The proposed Metikurki tank will not be of much advantage as it has no means of sufficient water-supply and the cost

of construction is comparatively high. Moreover, there are no lands below it fit for wet cultivation, they being of black cotton soil. It is therefore proposed that the Krishnambudhi tank need not be breached, but may be kept in good order, so that the water which it receives independently of the Marikanave channel, may be utilized for cultivation during rainy season and the channel water stored in it by means of a pipe during hot season.

Reply of Government.—Before any further action is taken, the Revenue Commissioner will be asked to give a definite opinion in the matter.

SUBJECT No. 500.

Improvement of water-supply to Hirekere tank by the diversion of the water of Andanurhalla.

Mr. Venkataramaiya, Taluk Member, Holalkere.

Summary of discussion.—The water-supply to the Hirekere tank at Holalkere may be improved by the diversion of the water of the Andanurhalla By doing so, an additional extent of 1,000 acres of wet land will be brought under holding. Owing to the want of supply of water to the tank, a large number of valuable gardens under it are decaying, and the wet cultivation has entirely stopped. Consequently, the raiyats are sustaining heavy loss. The above request is being made for the last ten or twelve years without any avail. Requests favorable orders of Government on the subject.

Reply of Government.—The project which has been investigated by the Executive Engineer is stated to cost Rs. 60,000. The Deputy Commissioner will be asked to see the rates and send up a report. The Chief Engineer also will be asked to send up a report after personal inspection.

SUBJECT No. 501.

Re-diversion of Kudarekanavehalla to the Budihal-Hirekere tank.

Mr. Khasim Saib, Taluk Member, Hosdurga.

Summary of discussion.—Budihal-Hirekere tank is yielding an annual income of Rs. 1,000 to Government from the wet and garden lands under it. This tank has had no supply for the last twelve years, as the course of the Kudarekanavehalla, which is the main feeder to this tank, has been otherwise diverted. The raiyats holding lands under the tank are put to great loss in consequence. It is prayed that the said halla may kindly be diverted to this tank.

Reply of Government.—It is reported that there is no way of feeding the Budihal tank. The Deputy Commissioner will kindly inspect this and send a detailed report regarding the levy of wet assessment on the Atchakat lands.

SUBJECT No. 502.

Construction of tank near Devarbelkere across Sulekerehalla.

Mr. Srinivasa Rao, Taluk Member, Harihar.

Summary of discussion.—The project for the construction of a tank near Devarbelkere across Sulekerehalla may be ordered to be put in hand immediately as represented in previous years for providing a means of subsistence for a large number of coolies and workmen who are suffering from want of livelihood owing to failure of Mungar rains

this year. This will, besides affording relief to the needy, bring in a large amount of revenue to Government from 3,000 acres of land, which may be irrigated by that tank.

Reply of Government.—This project is now under scrutiny and may be taken up in due course when funds become available.

SUBJECT No. 503.

Extension of Hospet-Kottur Railway line to Jagalur, etc.

Mr. Narasingappa, Taluk Member, Jagalur.

The member was absent but others spoke.

Summary of discussion.—A railway line has been opened from Hospet to Kottur in the Kudligi Taluk at a distance of twenty miles from Jagalur. The same line may be extended on to Chitaldrug *viâ* Jagalur and connected with the Holalkere Railway Station.

Reply of Government.—We have stated our opinion in reply to the Government of India that there is no objection on our part for the extension to Davangere.

SUBJECT No. 504.

Connection of the Hospet-Kottur Railway line with Davangere.

Mr. C. Somanna, Taluk Member, Davangere.

Summary of discussion.—It is very likely that the Southern Mahratta Railway Company may consult the Government in the matter of connecting the Hospet-Kottur Railway line with Davangere in preference to Harihar. But if they fail to do so, the Government may kindly address the Railway authorities to connect the said line with Davangere in the interest of traders.

Reply of Government.—*Vide* reply to Subject No. 503.

SUBJECT No. 505.

Revision of scale of cash allowances to Muzrai Institutions.

Mr. Srinivasa Rao, Taluk Member, Harihar.

Summary of discussion.—The ready money grants made to several Muzrai temples being very small, the prescribed puja and other services are not properly attended to. The existing scale which was fixed many years ago according to the circumstances then existing, is not suited to meet the requirements of the present day. It is therefore proposed that the scale may be revised so as to make the grants sufficient and attractive.

As an instance, the member quotes the case of Koneripantra Anjaneyaswami temple at Harihar, which is endowed with an annual cash allowance of Rs. 2-15-0.

Reply of Government.—It is impossible to raise the tasdik. There is no money.

SUBJECT No. 506.

Revival of the grant of sandal to the Sri Harihareswaraswami temple at Harihar.

Mr. Srinivasa Rao, Taluk Member, Harihar.

Summary of discussion.—Under a title-deed granted by the Inam Commissioner, the temple of Sri Harihareswaraswami at Harihar is entitled to an annual grant of two maunds of sandal from Government and was in receipt of the same till recently. The grant has been stopped for the last five or six years and may be revived.

Reply of Government.—It is not clear why the allowance was stopped. A report will be called for from the Deputy Commissioner.

SUBJECT No. 507.

Issue of cooked food to travellers in the Annachattram at Harihar.

Mr. Srinivasa Rao, Sub-Taluk Member, Harihar.

Summary of discussion.—The question of introducing regular feeding of travellers instead of issuing raw rations to them in the Muzrai Annachattram at Harihar was promised early consideration last year. The existing Brahmin servant on Rs. 5 attached to the chattram may be made to fetch water and cook food for the travellers and his salary may be raised to Rs. 8 a month in addition to his meals. The present sweeper on Rs. 2 may be paid Re. 1 more to bring the required provisions and attend at the chattram.

Reply of Government.—The Deputy Commissioner has already been asked to report on the subject and the matter will receive early attention.

SUBJECT No. 508.

Increase of the monthly cash allowance of the Sri Channakesavaswami temple at Bagur.

Mr. P. Nagappa, Taluk Member, Hosdurga.

Summary of discussion.—The temple of Sri Channakesavaswami at Bagur is the only important Muzrai institution in the Hosdurga Taluk. The Government have been pleased to restore the temple at a considerable cost from the State grants. The monthly cash allowance of Rs. 3-6-2 being very small, the puja and other services have ceased to be performed for the last one year or so. It is therefore proposed that the monthly cash allowance be kindly raised to Rs. 10 to enable the regular performance of the daily services.

Reply of Government.—The Deputy Commissioner has stated that he will separately report the matter for the orders of Government. The matter will be considered when this report is received.

SUBJECT No. 509.

Management of the Narasimhaswami temple near Mayakonda by the Muzrai Department.

Mr. Tipperudrappa, Taluk Member, Davangere.

Summary of discussion.—The old beautiful temple of Narasimhaswami near Mayakonda is in a dilapidated condition. It is prayed that the temple may be taken under Muzrai management, necessary repairs executed to it and arrangements made for the services being regularly conducted therein.

Reply of Government.—The matter may be represented to the Deputy Commissioner.

TUMKUR DISTRICT.

SUBJECT No. 510.

Authority to District Fund Board Members to supervise the work of pound-keepers, etc.

Mr. Krishna Iyengar, Turuvekere, Sub-Taluk.

Summary of discussion.—(*a*) Owing to the absence of pound-keepers at the pounds much inconvenience is felt by raiyats who take cattle for impounding; orders directing pound-keepers to be readily available always may therefore be kindly issued. Local Fund Board Members may also be authorised to supervise the work of pound-keepers.

Reply of Government.—The matter may be represented to the local authorities.

SUBJECT No. 511.

Exemption of village Madigars from payment of house tax.

Mr. Hutcheeregowda, Gubbi Taluk.

Summary of discussion.—Government Proceedings No. 1589-96—134, dated 21st May 1891, authorizes Madigars who render services to Government such as carrying of tappal, etc., in Municipalities and Village Unions exemption from house tax. But this order is not followed. Orders are therefore prayed for such exemption.

Reply of Government.—The matter may be represented to the Deputy Commissioner.

SUBJECT No. 512.

Separate sites for Holeyars and Madigars in villages.

Mr. Krishna Iyengar, Turuvekere Sub-Taluk.

Summary of discussion.—The Holeyars and Madigars in many villages build their houses in close proximity to those of high caste men and commit nuisances in the vicinity disregarding all restrictions and prohibitions. Orders allotting sites to them at a distance and compelling them to build their houses thereon may kindly be issued.

Reply of Government.—This cannot be done.

SUBJECT No. 513.

Restoration of alienated Inams of temples of Kerodi and Vighnasante.

Mr. Singri Nanjappa, District Board, Tumkur.

Summary of discussion.—Inam lands granted for the benefit of Sri Sankareswaraswami of Kerodi, and Sri Gopalakrishnaswami and Bala Lingeswaraswami of Vighnasante, have long been alienated to others and the temples suffer therefrom. Orders are requested for the restoration of these Inams to the temples.

Reply of Government.—The matter may be represented to the Deputy Commissioner.

SUBJECT No. 514.

The abolition of irrigation cess on lands irrigated by private wells in the Tumkur Taluk.

Mr. Sasul Thimme Gowda, Tumkur Taluk.

Summary of discussion.—In the Tumkur Taluk irrigation cess is being levied on lands irrigated by private wells. It is requested that the cess may be abolished.

Reply of Government.—Government Order No. 11251-9—R. 3738, dated 23rd June 1899, directs the abolition of irrigation cess on kushki bagayat lands below private wells. The Deputy Commissioner will be asked to see that effect is given to the order without any application from the raiyats concerned.

SUBJECT No. 515.

Restoration to the villagers of village lands which have now been added to the Devarayadurga State Forest.

Mr. Sasul Thimme Gowda, Tumkur Taluk.

Summary of discussion.—The Forest Department have included in the Devarayadurga State Forest lands which had been assigned to surrounding villages during the Forest Settlement by the Deputy Commissioner in 1899. It is requested that such lands may be ordered to be restored to the villagers.

Reply of Government.—The subject is said to be under correspondence in the Forest Department. The Deputy Commissioner will be asked to expedite the disposal of the case.

SUBJECT No. 516.

Reservation of Bikke Gudda Amrut Mahal Kaval as a Forest.

Mr. Ranganaika, Tumkur Taluk.

Summary of discussion.—Bikke Gudda Amrut Mahal Kaval contains a good number of teak, gall-nut and other valuable trees. It is suggested that the reservation of it as a Forest will be very profitable.

Reply of Government.—Will be considered.

SUBJECT No. 517.

The right to Forest produce of jalari trees in certain parts to be leased annually.

Mr. M. Krishna Iyengar, Turuvekere Sub-Taluk.

Summary of discussion.—The hills near Hanchihalli, Nirgunda and Dodda Settikere contain many jalari trees, but these do not appear to have been subjected to amarayi sales. It is suggested that they may be subjected to annual amarayi sales.

Reply of Government.—This matter requires early attention both by the Deputy Commissioner and the Conservator of Forests. The matter is too important to be left to itself. Government was deriving revenue out of this source. A report will be called for during the last ten years.

SUBJECT No. 518.

Repairs to the Talparige channel near Holavanahalli and Kyasavara.

Mr. Abidalli Sahib, Koratagere Sub-Taluk.

Summary of discussion.—Lands yielding a revenue of about Rs. 500 of Holavanahalli and Kyasavara, depend for their irrigation on Talparige channel which was overflown and silted up by the Suvarnamukhi river about twelve years ago. Holders of lands adjoining its banks object to the removal of the silt, hence the channel is not in action. It is suggested that necessary extent of land may be acquired for removing and storing the silt of the channel and the channel restored.

Reply of Government.—The matter is said to have been referred to the Assistant Commissioner in charge for a report. The action taken is not adequate. The Deputy Commissioner will be asked to find an opportunity to inspect also and do the needful.

SUBJECT No. 519.

Constructing an *ane* to Kodihalla of Chikkanahalli.

Mr. Abidalli Sahib, Koratagere Sub-Taluk.

Summary of discussion.—The tail water of Chikkanahalli major tank and that of the channel drawn from the Jayamangali river at present flow into the river. There was a small *ane* above the river to utilize this water for irrigating some 100 acres of lands of Baichapura. If this *ane* is restored, the raiyats would be willing to pay one-eighth contribution and wet-rates on dry lands.

Reply of Government.—The matter is stated to have been referred to the Assistant Commissioner for report. The Deputy Commissioner also will enquire into this matter and report to Revenue Commissioner in consultation with the Chief Engineer.

SUBJECT No. 520.

The construction of silt traps for Mayasandra and Turuvekere tanks.

Mr. M. Krishna Iyengar, Turuvekere Sub-Taluk.

Summary of discussion.—Year by year the tanks of Mayasandra and Turuvekere are becoming shallow on account of accumulation of silt. It is therefore suggested that silt traps may be constructed above these tanks.

Reply of Government.—Will be referred to the Public Works Department for report. But the remedy lies with the raiyats also if they could grow trees to obstruct the inflow of silt.

SUBJECT No. 521.

Raising the weir of the Nagalapura tank.

Mr. M. Krishna Iyengar Turuvekere Sub-Taluk.

Summary of discussion.—It is suggested that the Nagalapura tank in the Mayisandra Sammath may be improved by raising its kodi.

Reply of Government.—The raiyats state that they will actually improve the tank. The Deputy Commissioner may investigate.

SUBJECT No. 522.

A separate Tank Inspector to Turuvekere Sub-Taluk.

Mr. M. Krishna Iyengar, Turuvekere Sub-Taluk.

Summary of discussion.—As the Dabbeghatta Sammath has also been attached to Turuvekere Sub-Taluk, the number of tanks to be looked after is large. At present there is only one Tank Inspector for this Sub-Taluk and the Tiptur Taluk. It is suggested that a separate Tank Inspector for the Sub-Taluk may be sanctioned.

Reply of Government.—The Chief Engineer will be asked to consider this carefully. Increase of establishments is one of the matters which require scrutiny.

SUBJECT No. 523.

Construction of Darogara Ane.

Mr. M. Krishna Iyengar, Turuvekere Sub-Taluk.

Summary of discussion.—Petitions to the Revenue and the Public Works Department authorities for the construction of the Darogara ane of Mayisandra have not been favourably viewed and the ane has not been restored. The construction of this ane will store the tail water of Mayisandra tank for irrigating lands below it. Orders are requested in the matter.

Reply of Government.—Noted.

SUBJECT No. 524.

The opening of a Dispensary at Kodigenahalli.

Mr. Puttahariappa, Maddagiri Tk.

Summary of discussion.—As Maddagiri is at a distance of sixteen or twenty miles from Kodigenahalli, a Local Fund Dispensary may be ordered to be established there for affording medical relief to surrounding villages.

Reply of Government.—Will be considered when funds permit.

SUBJECT No. 525.

The opening of a road from Hindupur to Maddagiri and the construction of a musafirkhana at Kodigenahalli.

Mr. Puttahariappa, Maddagiri Tk.

Summary of discussion.—The subject of laying out a road from Maddagiri to Hindupur and the construction of a musafirkhana at Kodigenahalli was pressed for consideration last year. The Deputy Commissioner has not taken steps to execute these works. If necessary, a toll may be levied on carts to meet the cost required for laying out the road.

Reply of Government.—The suggestion of tolls for carts is a good one, and may be considered by the District Board.

SUBJECT No. 526.

Constitution of the Turuvekere Taluk.

Mr. V. Naranappa, Tumkur District Board.

Summary of discussion.—In the recent introduction of the Shekdari scheme, the Dabbegatta Sammath has also been attached to Turuvekere Sub-Taluk and there are 155 villages with a revenue of Rs. 90,000 in the Sub-Taluk. It is prayed that the Sub-Taluk may be constituted as a pakka taluk. If that is not possible, it is suggested that an

addition of a couple of gumastas to the existing establishment will materially tend to the prompt despatch of Government work.

Reply of Government.—Nothing seems necessary now.

SUBJECT No. 527.

Repairs to the Maidala tank feeder channels.

Messrs. Timme Gowda and Davuth Khan, Tumkur Taluk.

Summary of discussion.—The subject of repairing feeder channels to Maidala tank was represented last year. It is again requested that Government may undertake the work without levying any contribution from the raiyats.

Reply of Government.—The question will be referred to the Public Works Department for investigation and report early. This is a standing grievance in the Tumkur District which should soon be remedied. The Chief Engineer was also asked to submit a note last year on the subject.

SUBJECT No. 528.

Repairing Cholenahalli tank.

Mr. Srikantaiya, Maddagiri Taluk.

Summary of discussion.—Execution of repairs to Cholenahalli tank in the Maddagiri Taluk urged in last year's Assembly, has not been taken on hand as yet. Lands of Hariharkoppa, Cholenahalli, Guruvaderahalli, Maddagiri, Kambatnahalli and Karmardi, amounting in all to nearly 300 acres of dry land, may be converted into wet if the tank is improved; the feeder channel also is in disrepair.

Reply of Government.—A report will be called for from the Chief Engineer.

SUBJECT No. 529.

Raising the weir of Sulekere tank.

Mr. Naranappa, Tumkur District Board.

Summary of discussion.—The Sulekere tank does not store sufficient quantity of water to irrigate all lands below it. Orders are requested to raise its weir.

Reply of Government.—The Chief Engineer will be asked to consider this proposal.

SUBJECT No. 530.

Improvement of the Ayannana Naikankere.

Mr. Krishna Iyengar, Turuvekere Sub-Taluk.

Summary of discussion.—The waste weir and the sluice of Ayannana Naikankere in Dodda Beerankere village, Mayisandra Sammath, are out of repairs. This is a big tank, and if restored it will bring a greater area under cultivation.

Reply of Government.—Public Works Department will be asked to investigate.

SUBJECT No. 531.

Appointment of Nala manegars to big tanks.

Mr. Hucheere Gowda, Gubbi Tk.

Summary of discussion.—States that the appointment of a Nala manegar will be a source of vexation to raiyats, and requests that the village officials may be entrusted with the work of water-supply.

Reply of Government.—Noted. Every local circumstance will be dealt with as required.

SUBJECT No. 532.

Nala manegars to tanks of Turuvekere, Mallaghatta and Mayasandra.

Mr. Krishna Iyengar, Turuvekere Sub-Taluk.

Summary of discussion.—The appointment of Nala manegars to the tanks of Mayisandra, Turuvekere and Mallaghatta was urged for consideration last year. These appointments have not been sanctioned as yet. Early orders are requested in the matter.

Reply of Government.—The matter is under consideration. The Deputy Commissioner's report may be awaited. It should be expedited.

SUBJECT No. 533.

An in-patient ward to the Maddagiri Local Fund Dispensary.

Mr. Puttahariappa, Maddagiri Tk.

Summary of discussion.—As accommodation for sick patients is wanting in the Local Fund Dispensary at Maddagiri, orders are requested for the construction of a ward.

Reply of Government.—The District Board will consider this want.

SUBJECT No. 534.

Parapet walls along the edges of the Nonavinkere tank bund.

Mr. Singri Nanjappa, District Board, Tumkur.

Summary of discussion.—The Local Fund road from Tiptur to Yadiyur passes over the bund of the Nonavinkere tank. The bund is a mile long and is rather narrow and dangerous to the carts passing over it. Orders are requested for putting up parapet walls along its edges.

Reply of Government.—This is a matter for the District Board.

SUBJECT No. 535.

Feeder channel to Karadi tank.

Mr. Singri Nanjappa, District Board, Tumkur.

Summary of discussion.—Lands below Karadi tank yield a revenue of Rs. 1,500. But the tank has not got a proper feeder channel. It is prayed therefore that orders may be passed to divert the feeder channel flowing near Konankaval and Sidlahalli to this tank.

Reply of Government.—This will be referred to the Public Works Department for report.

SUBJECT No. 536.

Construction of dams across the feeder channels of big tanks in the Tiptur Taluk.

Mr. Sivananjappa, Tiptur Taluk.

Summary of discussion.—Requests that dams across the feeder channels of big tanks may be constructed to prevent silt from getting into the tanks and thus gradually lessening their depths.

Reply of Government.—Dealt with in No. 520.

SUBJECT No. 537.

Construction of a road from Halkur to Honnavalli.

Mr. Sivananjappa, Tiptur Taluk.

Summary of discussion.—Requests that a road may be opened out from Halkur to Honnavalli a distance of eight miles for the convenience of the carts going from Halkur and other villages to the sante at Tiptur.

Reply of Government.—Will be referred to the District Board.

SUBJECT No. 538.

A road from Amritur to Huliyurdurga.

Mr. Singrachar, Kunigal.

Summary of discussion.—It is prayed that orders may be passed to lay out a road from Amritur to Huliyurdurga.

Reply of Government.—This is a matter for the District Board.

SUBJECT No. 539.

Amritur to be constituted into a Union

Mr. Singrachar, Kunigal.

Summary of discussion.—It is prayed that Amritur may be constituted into a Union as the number of houses there is 500 with a population of 2,000.

Reply of Government.—The necessity will be enquired into by the Deputy Commissioner and reported.

SUBJECT No. 540.

Extension of Amritur village.

Mr. Singrachar, Kunigal.

Summary of discussion.—It is prayed that kandayam-paying lands adjoining Amritur village may be acquired and the village site extended as it is already overcrowded and as there is no scope for its extension.

Reply of Government.—The Deputy Commissioner will be asked to deal with the matter early.

SUBJECT No. 541.

Opening a chattram at Mayisandra.

Mr. M. Krishna Iyengar, Turuvekere.

Summary of discussion.—An allowance of Rs. 10, used to be given for feeding Bhairagies at Mayisandra, is now discontinued. The Bhairagies are now passing through the village in numbers. A feeding chattram may be ordered to be established at Mayisandra.

Reply of Government.—This is not possible.

SUBJECT No. 542.

Transfer of the Huliyurdurga chattram to Kunigal.

Mr. Herur Gundappa, Kunigal Tk.

Summary of discussion.—The Damodar Charities Chattram is at present maintained at Huliyurdurga where many travellers do not resort to. If it is transferred to Kunigal it will be beneficial to many travellers. If, however, it is insisted that *Anna Santarpane* should be held at Huliyurdurga at stated intervals, it is requested that part of the funds set apart for feeding travellers may be made available to feed travellers at Kunigal.

Reply of Government.—The matter may be represented to the Deputy Commissioner.

SUBJECT No. 543.

Repairs to the Kadaba temple.

Mr. Ramanuja Iyengar, Gubbi Taluk.
The member was absent but others spoke.

Summary of discussion.—The Sri Ramadevaru temple at Kadaba is an ancient and a famous one. It is said that an estimate for Rs. 3,000 for the gopuram and compound wall has been submitted for sanction. Early sanction is solicited.

Reply of Government.—With local contributions, an application may be made to the Deputy Commissioner.

SUBJECT No. 544.

Transfer of Gubbi chattram to Kadaba.

Mr. Ramanuja Iyengar, Gubbi Tk.
The member was absent but others spoke.

Summary of discussion.—Kadaba town is situated on the Sira-Nelligere road. The *Bhairagies* frequent it on their way to Melkote and Rameswaram. A chattram, located here formerly, has now been transferred to Gubbi. The chattram may as before be located at Kadaba.

Reply of Government.—This cannot be done.

BANGALORE DISTRICT.

SUBJECT No. 545.

Tram-cars from Bangalore City to the Civil and Military Station.

Messrs. N. Ramabhadraiya, B. V. Ramaswami Chetty, B.A., and B. K. Garudachar, Bangalore City Municipality.

Summary of discussion.—Introduction of Electrical Tram-cars from the Bangalore City to the Civil and Military Station.

Reply of Government.—This is somewhat premature, as even the lighting scheme of the Civil and Military Station

is not yet completed. Electric tramways are merely a question of time and money, and they must lie over for the present.

SUBJECT No. 546.

Extension of Electric Lighting to the two Extensions.

Messrs. N. Ramabhadraiya, B. V. Ramaswami Chetty, B.A., and B. K. Garudachar, Bangalore City Municipality.

Summary of discussion.—Extension of Electric Lighting to the Basavangudi and Malleswaram Extensions is prayed for.

Reply of Government.—It would not be worth while to extend the Electric Light to outlaying extensions until a sufficient number of applications come from private owners to make it pay to do so. Let these applications come and we will consider.

SUBJECT No. 547.

Levy of octroi duty on stitched clothes exposed for sale.

Mr. D. Gopala Char, Devanhalli Taluk.

Summary of discussion.—There are no rules permitting the levy of octroi duty on stitched clothes exposed for sale in Municipal towns at Shandy and other places. This shuts out one of the sources of income to the Municipality, and hence this deserves the consideration of Government.

Reply of Government.—The order of 1901 declining to allow such a levy is proper and cannot be revised (*Vide* Government Order No. 10047—L. F. 98-95, dated 25th December 1901).

SUBJECT No. 548.

A road across the Dakshina Pinakini between Devanhalli and Hoskote.

Mr. D. S. Hanumantha Rao, Devanhalli Taluk.

Summary of discussion.—As the distance of eleven miles from Devanhalli to Hoskote is crossed by the Dakshina Pinakini, people travelling there will have to make a circuit of thirty miles. So a road connecting the 19th mile of the Bellary-Bangalore road with Sulebele-Hoskote road and bridging over the river will be a boon to the people.

Reply of Government.—This is a matter for the consideration of the District Fund Board.

SUBJECT No. 549.

Repair of Ghati road, Dodballapur.

Mr. Baire Gowda, Dodballapur Taluk.

Summary of discussion.—The road leading to Ghati-Subramanyaswami temple is in disrepair and this may be usefully repaired from the Temple Funds, as it is very much frequented during the time of festivals.

Withdrawn.

SUBJECT No. 550.

Opening of cart-tracks below Amanikere tanks.

Mr. D. S. Hanumantha Rao, Devanhalli Taluk; and Mr. Guruva Reddi, Bangalore Taluk.

Summary of discussion.—(*a*) State that the cart-tracks below the Amanikere tanks have not been shown in the Nakasas, that the khatedar has consequently encroached upon them, and request that necessary steps may be taken to get the cart-tracks opened out.

(*b*) Request that cart-tracks may be opened out under the small Amanikere tanks, as the raiyats are willing to pay contribution, if necessary.

Reply of Government.—The matter may be represented to the Deputy Commissioner.

SUBJECT No. 551.

Transfer of the collections of Land Revenue within the City to the Municipality.

Messrs. N. Ramabhadraiya, B. V. Ramaswami Chetty, B.A., and B. K. Garudachar, Bangalore City Municipality.

Summary of discussion.—Transfer of the collections of Land Revenue within the City Municipal limits to the Municipality is prayed for.

Reply of Government.—No change is called for.

SUBJECT No. 552.

Grant of 300 acres of land near Gandargulipura reserved for plantation to the villagers for cultivation.

Messrs. Naranappa and Karigiriyappa, Dodballapur Taluk.

Summary of discussion.—The 300 acres of land near Gandargulipura now reserved for plantation is unfit for that purpose. Originally the same was under cultivation and yielding annually about Rs. 400 to Government. During the last famine the raiyats relinquished the land. Now the eight villages thereabout have no land for grazing their cattle. So this portion of the reserve may be profitably thrown out for cultivation and given to the raiyats of these villages who are willing to take it up.

2. Or the portions of forest where there are no casuarina plantations may be allowed to be used for grazing purposes on payment of four annas per head of cattle just as in the State Forest.

Reply of Government.—This is stated to be under enquiry.

SUBJECT No. 553.

Letting out of the whole forest of Mudgere and Sulleri for agricultural purposes.

Mr. Ranga Iyengar, Channapatna Taluk.

Summary of discussion.—Out of the whole forest of Mudgere and Sulleri that is reserved for fuel, only ninety acres are ordered to be thrown out for cultivation. The remaining area may also be let out for agricultural purposes, if by so doing, the Government sustain no loss.

Reply of Government.—It would be time to think of it when the extent disafforested is taken up for cultivation.

SUBJECT No. 554.

Reservation of some District Forests exclusively for the use of raiyats.

Mr. Ranga Iyengar, Channapatna Taluk.

Summary of discussion.—All the twenty-four District Forests of this taluk are reserved by the Forest Department itself and the raiyats in consequence are in great want of grazing lands and wood for agricultural implements. About 500 acres out of Tenginkal Forest were said to be kept apart for the purpose. The requisition is not complied with as yet.

Reply of Government.—This matter will be enquired into, and a special report submitted to Government by the Conservator of Forests.

SUBJECT No. 555.

Transfer of certain Excise Revenue in the City to the Municipality.

Messrs. N. Ramabhadraiya, B. V. Ramaswami Chetty, B.A., and B. K. Garudachar, Bangalore City Municipality.

Summary of discussion.—Transfer of the Locol Cess on still head duty on Arrack and Toddy Revenue in the City to the Municipality is prayed for.

Reply of Government.—Will be considered.

SUBJECT No. 556.

Re-distribution of Hoblis in the Taluk.

Messrs. Desakulakarni Dasappa and Channalingappa of Nelamangala Taluk.

Summary of discussion.—In reducing the six Hoblis of this Taluk to four in the re-distribution of Hoblis, Sondekoppa, which is the third in order in the Taluk, the first being Nelamangala and the 2nd Tyamagondlu, and seven miles distant from the Taluk Head-quarters, is not made Hobli Head-quarter and instead of it Dasanpura distant three miles from Nelamangala is made the Head-quarter of the Hobli. The smallness of the village and nearness to Taluk Head-quarter rather makes it unfit for a Hobli-quarter.

So Sondekoppa which borders on the Magadi Taluk may be continued as Head-quarter.

Reply of Government.—The Deputy Commissioner is considering the subject.

SUBJECT No. 557.

Carrying out of the Kumudvati project.

Messrs. Desakulakarni Dasappa and Channalingappa, Nelamangala Taluk.

Summary of discussion.—The carrying out of the Kumudvati project will not only add to the revenue of the taluk but will create livelihood to the people of the taluk, in which there are no large tanks which would supply water for more than one crop during the year.

Reply of Government.—Noted. A project for Rs. 1,08,290 has been prepared for constructing a tank across the Kumudvati at Gabbur, and is now under scrutiny, but it is not a very promising one.

SUBJECT No. 558.

Contract for repairs to tanks to be given to the raiyats owning lands under the tanks.

Messrs. Seenappa, Shanbhog, and Byre Gowda, Patel, Bendiganahalli, Hoskote Taluk.

Summary of discussion.—As contracts for the repairs to the channels of the Amani Dodkere are given to people not owning lands under it, the works are not executed with the necessary zeal and earnestness and consequently frequent repairs are necessitated. If, on the other hand, some reliable raiyat who lives in the neighbourhood be entrusted with the business, it will be to the advantage of both raiyats and Government.

Reply of Government.—The Deputy Commissioner will enquire into this matter. The irrigation under this tank is repeatedly brought to notice as unsatisfactory. The District and local authorities will be asked to give their special attention to this big irrigation.

SUBJECT No. 559.

Opening of a causeway to the Dakshina Pinakini river.

Mr. D. S Hanumantha Rao, Devanhalli Taluk.

Summary of discussion.—The Dakshina Pinakini river, which is to the east of this taluk, is a source of menace to cattle and men in the time of flood. A causeway across will be helpful.

Reply of Government.—Dealt with in Subject No. 548.

SUBJECT No. 560.

Restoration of tanks in disrepair.

Messrs. Desakulakarni Dasappa and Channalingappa, Nelamangala Taluk.

Summary of discussion.—The non-restoration of breached tanks is not only a source of loss to Government but also of hardship to the raiyats who hold lands under them as they are made to pay kandayam due thereon. It is therefore necessary that these should be restored as early as possible. There are three such tanks in the taluk: (i) Avverahalli, (ii) Kuduragere and (iii) Goranabele, (iv) Sulagunte, Begur Hobli.

Reply of Government.—Will be enquired into.

SUBJECT No. 561.

Restoration of breached tanks.

Mr. Ranga Iyengar, Channapatna Taluk.

Summary of discussion.—The matter of restoring the breached tanks in Brahmanipura, Agrahara, Valagarahalli and Avverahalli was, after discussion in the last year's Assembly, referred to the Chief Engineer and the Deputy Commissioner for doing the needful; but nothing seems to

have yet been done and a great loss is sustained both by the raiyats and Government.

Reply of Government.—The Deputy Commissioner will attend to this matter under the new orders for the restoration of tanks.

SUBJECT No. 562.

Construction of a tank near Neralur.

Mr. Ranga Iyengar, Channapatna Taluk.

Summary of discussion.—If a large tank be constructed so as to be fed by the streamlet that runs in the neighbourhood of the village Neralur, a very large area yielding a good income will be brought under wet cultivation. Correspondence is said to be going on between the Public Works and Revenue Departments. Early disposal is requested.

Reply of Government.—Will be referred to the Public Works Department.

SUBJECT No. 563.

Construction of a tank at Dasavara.

Mr. Ranga Iyengar, Channapatna Taluk.

Summary of discussion.—Serious loss has been sustained by raiyats for the last ten or twelve years owing to failure of corps consequent on the scarcity of water. The construction of a tank at Dasavara which has been under consideration for some time, will convert a vast area of dry lands into wet and go a great way in alleviating the sufferings of the poor, if done early. This is a repeated question.

Reply of Government.—Will be referred to the Public Works Department.

SUBJECT No. 564.

Baradanahalli Water Project.

Mr. Shanbhog Shamaiya, Kankanhalli Taluk.

Summary of discussion.—A project to put a dam across the small jungle stream near Baradanahalli was contemplated four or five years back. The execution of the same will not only bring a large extent of land under wet cultivation, but also make drinking water available in summer for the cattle.

Reply of Government.—Will be referred to the Chief Engineer for early investigation.

SUBJECT No. 565.

Bridge across Arkavati on the Bangalore-Sivasamudram road.

Mr. Shanbhog Shamaiya, Kankanhalli Taluk.

Summary of discussion.—The Bangalore-Sivasamudram road, *via*, Kankanhalli, crosses the Arkavati river which is not fordable in the rainy season. A bridge across will help traffic very much.

Reply of Government.—Will be considered when funds permit.

SUBJECT No. 566.

Repairs to the Dattatreya Swami temple on Divyagiri Hills.

Mr. D. S. Hanumantha Rao, Devanhalli Taluk.

Mr. Guruva Reddi, Bangalore Taluk.

Summary of discussion.—Requests that necessary repairs may be done to the Dattatreya Swami temple on Divyagiri Hills and daily worship introduced there instead of the weekly worship now performed.

Reply of Government.—Will be enquired into.

SUBJECT No. 567.

Food arrangement required at the musafirkhana at Dodballapur.

Messrs. Naranappa and Karigiriyappa, Dodballapur Taluk.

Summary of discussion.—The musafirkhana near the Railway Station at Dodballapur, which is much frequented by travellers, affords only lodgings. If some means is found to give food also, the institution will be a blessing to the travelling poor.

Reply of Government.—It is undesirable to make temporary feeding arrangements at Dodballapur from the funds of the Ghati Subramanya Swami temple as a large number of Brahmins are fed in the temple itself at the time of the jatra; and most of the pilgrims go from the Maklidurg Station which is only about two miles from the temple.

KOLAR DISTRICT.

SUBJECT No. 568.

1. Transfer of Narsapur hobli to the jurisdiction of the Kolar Munsiff's Court.

Do Goribidnur to the jurisdiction of the Chikballapur Munsiff's Court.

1. Messrs. Srinivasa Rao and Rama Rao of Malur Taluk.
2. Mr. Narasimhaiya, Municipal Member of Chikballapur.
3. Messrs Gopala Rao, Ramachar and Mudrajappa, Kolar Municipal Board.

Summary of discussion.—The hobli of Narsapur is thirty miles distant from the Gold Fields where there is a Munsiff's Court. Great inconvenience is felt and much loss is sustained by the clients and witnesses in going to and returning from the Munsiff's Court located there. It is therefore requested that this hobli may be transferred to the Kolar Munsiff's Court which is only at a distance of nine miles from Narsapur.

2. It is proposed that the Goribidnur Taluk may be added on to the jurisdiction of the Chikballapur Munsiff's Court.

3. A large portion of the Malur Taluk is nearer to Kolar than to the Gold Fields and much hardship is experienced by the litigant public, so the taluk may be brought under the jurisdiction of the Kolar Munsiff's Court.

Reply of Government.—This is not feasible now after the recent changes.

SUBJECT No. 569.

Relieving Amildars from Criminal work.

Messrs. M.S. Ramachariar and C. B Gopala Rao of Kolar Municipality.

Summary of discussion.—The work of the Amildar is enormous and the separation of the Judicial from the Executive functions of an Amildar will allow him more time and the Revenue work may be better attended to.

Reply of Government.—The Deputy Commissioner says that there is no such excess of work. It is a matter for proper distribution to be effected between the Treasury Officer and other Assistant Commissioners including the Gold Fields Magistrate.

SUBJECT No. 570.

Police, Kolar Gold Fields.

Mr. C. H Richards, Kolar Gold Fields Mining Board.

Summary of discussion.—The Mining Board much appreciate the good work performed by the Kolar Gold Fields Police during the past year.

Reply of Government.—See the reply to the address. (Appendix E. I.)

SUBJECT No. 571.

Head-quarters of the Assistant Commissioner in charge of Bowringpet, Malur and Mulbagal Taluks.

Mr. Basave Gowda, Bowringpet Taluk.

Summary of discussion.—Requests that the Head-quarters of the Assistant Commissioner in charge of Bowringpet, Malur and Mulbagal group of taluks may be fixed in any of these taluks instead of at Kolar.

Reply of Government.—Kolar is said to be central and no change is called for.

SUBJECT No. 572.

Appointment of Natives as members of the Kolar Gold Mining Sanitary Board.

Mr. Basave Gowda, Bowringpet Taluk.

Summary of discussion.—Requests that Natives may be appointed as members of the Kolar Gold Mining Sanitary Board, which now consists of purely Europeans, as some villages of this taluk belong to the Board.

Reply of Government.—Noted.

SUBJECT No. 573.

Opening out of village roads in the Bowringpet Taluk.

Mr. Basave Gowda, Bowringpet Taluk.

Summary of discussion.—States that eighty-two villages of the Bowringpet Taluk, yielding a Local Fund and Mohatarfa of Rs. 20,000, have been attached to the Sanitary Board and requests that part of the amount may be spent in opening out roads from village to village instead of utilizing the whole amount for the Sanitary Board.

Reply of Government.—A road from Ooregum to Kyatamhalli and thence to Agrahara is said to be a necessity and will be dealt with by the Deputy Commissioner.

SUBJECT No. 574.

Mohatarfa tax on buildings at the Kolar Gold Fields.

Mr. Basave Gowda, Bowringpet Taluk.

Summary of discussion.—Requests that the buildings erected on the Gold Fields may be taxed with Mohatarfa, in accordance with the Dewan's orders of December 1886.

Reply of Government.—Will be considered.

SUBJECT No. 575.

Sanskrit School for Kolar.

Messrs. M. S. Ramachar and C. B. opala Rao of Kolar Municipality.

Summary of discussion.—The want of a Sanskrit School for the Kolar Town is greatly felt. A portion of the chattram funds may be utilized.

Reply of Government.—The Deputy Commissioner says that a Sanskrit School appears to be a necessity. This opinion will be communicated to the Inspector-General of Education for consideration and report.

The Muzrai Secretary will be asked to inspect the chattram and submit a report on its management.

SUBJECT No. 576.

The construction of a school building at Malur.

Messrs. Srinivasa Rao and Rama Rao of Malur Taluk.

Summary of discussion.—At present the school at Malur is held in a rented building ill-suited for the purpose. Representation was made last year for the construction by the Government of a separate building admitting sufficient light and air. Early orders may be passed for the construction of the same.

Reply of Government.—Noted.

SUBJECT No. 577.

The remission of Chowthayi arrears in the Malur Taluk.

Messrs. Srinivasa Rao d ama Rao of Malur Taluk.

Summary of discussion.—Orders may be issued for the remission of the balance of Chowthayi amounts in the Malur Taluk, which have been in arrears for the past twelve years, the khatedars of lands under the Hathlagavadu tanks being asked to keep such tanks in good condition.

Reply of Government.—Both the Revenue Commissioner and the Deputy Commissioner are attending to this matter.

SUBJECT No. 578.

Remission on lands under the tanks of the Palar Series.

Messrs. Chikkaramanna, Saryanaranappa, Kolar Taluk.

Summary of discussion.—Request that half remission may be granted this year also on lands under the tanks of the Palar Series, as there was no water in the tanks, and as the raiyats are impoverished owing to the scarcity of rain.

Reply of Government.—The Deputy Commissioner has received necessary instructions, and the matter will be dealt with considerately by Government.

SUBJECT No. 579.

Tank repairs.

Messrs. Srinivasa Rao and Rama Rao of Malur Taluk.

Summary of discussion.—Projects prepared for the restoration of tanks have been transferred to the Famine Relief Works. These tanks are in utter disrepair. During heavy rains these may breach and endanger the safety of the serial tanks below. It is not therefore advisable to put off such works. Many such and other works can be selected at the time of famine.

Reply of Government.—This is a question of funds.

SUBJECT No. 580.

BethamangalaWaterScheme.

Mr. C. H. Richards.

Summary of discussion.—The Mines which participate in this scheme are grateful for the rapidity with which the repairing of the Bethamangala tank bund was effected and much appreciate the benefits derived from the water-supply from this source.

Note.—See reply to the address (Appendix E. I.).

SUBJECT No. 581.

Water-supply to Mulbagal Taluk.

Mr. Kaste Hyder Sab, Mulbagal Municipality.

Summary of discussion.—The town of Mulbagal being situated at the foot of the hills, springs are not tapped in sinking wells as the soil is rocky. In the rainy season the water of the tank and of the surrounding villages is used, while in summer much inconvenience is felt for want of water, and the use of stagnant water causes disease. There is a tank by name "Madhavasagara" close to the town, which has no lands under it to irrigate. Pray that the water inconvenience be removed by supplying water to the town by means of pipes laid from this tank after repairing it and increasing its capacity. But as this needs a heavy outlay and the funds at the disposal of the Municipality at present are insufficient, a loan may be granted by Government subject to repayment by annual instalments with interest.

Reply of Government.—Await funds.

SUBJECT No. 582.

The inclusion of Pardi lands in village sites of Mulbagal and the prohibition of cultivation on these Pardi lands.

Mr. Kaste Hyder Sab of Mulbagal Municipality.

Summary of discussion.—There are several "Pardi" ಪರಡಿ numbers in and around the town of Mulbagal. Onions, radish and other miscellaneous vegetables are raised therefrom. This affects the health of the inhabitants. It is therefore requested that the assessment on these Pardi num-

bers may be struck off, and the lands included in the village site, and cultivation prohibited.

Reply of Government.—Cultivation too near the places of residence is no doubt injurious to the health of the inhabitants. The matter may be represented to the Deputy Commissioner.

SUBJECT No. 583.

Municipal park, etc., for the town of Mulbagal.

Mr. Kaste Hyder Sab of Mulbagal Municipality.

Summary of discussion.—As there is no suitable place in the town of Mulbagal for the people to convene public meetings, it is requested that the open ground in front of the Taluk Cutcherry, near which many thatched houses are erected by some people, as well as the empty well now in ruins, may be converted into a park and a reading room convenient for holding public meetings constructed in commemoration of the installation of His Highness the Maharaja Sri Krishnaraja Wadayar and people who have errected thatched houses in the above locality be ordered to build houses on Pardi lands alluded to in Subject No. 8.

Reply of Government.—Such improvements must await the introduction of water-supply.

SUBJECT No. 584.

Grant of Hulbanni gratis to raiyats.

Messrs. Chikkaramanna, Suryanaranappa, Kolar Taluk.

Summary of discussion.—Request that the Hulbanni this year may be given gratis to the raiyats for grazing their cattle, which have no fodder owing to scarcity of rain.

Reply of Government.—The Deputy Commissioner of Kolar will enquire into this matter, but his present opinion that such relief is unnecessary at present.

SUBJECT No. 585.

The construction of sluices to the Somambudhi tank.

Mr. Chikkaramanna of Kolar.

Mr. Suryanaranappa of Kolar.

Summary of discussion.—The restoration of the Somambudhi tank, which breached during the heavy floods, has since been completed by the Public Works Department. When this tank was in good repair, distant lands did not get their water-supply, as the main channels opened were not provided with sluices. Many a representation was made to Government and to the Public Works Department in this matter. But nothing has yet been done. Now that the work of restoration has been completed, it is prayed that sluices may be constructed in the channels after executing repairs to the latter. By this the raiyats will be immensely benefited and the Government profited.

Reply of Government.—An estimate for improving the channels and for constructing cattle bridges is under preparation. The Public Works Departmemt will be asked to expedite.

SUBJECT No. 586.

The conversion of wet rate of assessment into dry one on lands under Kolar Amanikere.

Messrs. Chikaramanna of Kolar and Suryanaranappa.

Summary of discussion.—The supply of water to the Kolar Amanikere being extremely insufficient by reason of the raising of the waste-weir level of the Ammerahalli and Maderahalli tanks above for the water-supply to the Kolar

town, the lands under the tank have been lying waste for the last seven or eight years. It was requested last year that the dry rate of assessment may be levied on these lands. It was ordered that the matter would be enquired into and disposed of. But nothing has been done till now. The lands are now lying waste as there is no water in the tank. Representation was made for remission of assessment, but it was not granted. It is prayed that the dry rates may be levied on these lands as 'Banjar Kandayam' is being paid every year.

Reply of Government.—The disposal of the matter will be expedited.

SUBJECT No. 587.

The sinking of wells in the villages of the Kolar Taluk.

Messrs. Chikaramanna and Suryanaranappa, Kolar Taluk.

Summary of discussion.—In villages of Kolar Taluk the Government have sanctioned the sinking of wells at a heavy cost, but the work has been let out on contract. For want of proper supervision these contractors do not sink the wells to the required depths but revet the sides with stones. By so doing many wells dry out in summer and consequently people are put to much hardship for want of water. Government have entertained a separate establishment for this. But no good has resulted to the people and heavy loss is sustained by Government as this establishment does not supervise the work properly. The Local Fund Board is inattentive towards this. It is requested that orders may be issued to sink the wells (so charitably sanctioned by Government) according to the sanctioned estimates and to repair all such wells as have been sunk till now but which are not in accordance with the estimates.

Reply of Government.—The Deputy Commissioner will be asked to enquire and see that the work is completed satisfactorily, or payment withheld to the contractors.

SUBJECT No. 588.

Constructing a tank at Rajamakanahalli.

Messrs. Gundu Rao, Basavegowd & Munisami Reddi of Bowringpet

Summary of discussion.—The Public Works Department have prepared a project for the construction of a tank near Rajamakanahalli of the Budikote hobli through which Markandeya river passes. Early orders may be passed for carrying out the work as by the construction of this tank about 1,000 acres will be brought under cultivation.

Reply of Government.—Will be considered.

SUBJECT No. 589.

Repairs to the roads, Kolar Gold Fields.

Mr. C. H. Richards, Kolar Gold Fields Mining Board.

Summary of discussion.—Thanks are due to Government for taking over the maintenance of additional roads in the Gold Fields area. At the same time it is desired to draw attention to the necessity for repairing the main road which is getting into a bad state, and this applies to the roads generally throughout the Fields.

Note.—See the reply to the Address (Appendix E,I.).

SUBJECT No. 590.

Government Hospital, Kolar Gold Fields.

Mr. C. H. Richards, Kolar Gold Fields Mining Board.

Summary of discussion.—The Mining Board are disappointed that the Hospital promised two years ago is not yet in working order.

Note.—See reply to the Address (Appendix E. I.).

SUBJECT No. 591.

Maternity Hospital for Kolar Gold Fields.

Mr. C. H. Richards, Kolar Gold Fields Mining Board.

Summary of discussion.—At the Dasara Assembly held in 1904, the urgent need of a Maternity Hospital was represented and it is hoped that this important matter will receive the early attention of Government.

Note.—See reply to the Address (Appendix E. I.).

SUBJECT No. 592.

Stolen gold to be returned to the Mining Company and not confiscated to the Government.

Mr. C. H. Richards.

Summary of discussion.—The Mining Board desire to represent that gold which has been proved to have been stolen from the Kolar Gold Fields should be returned to them as representing the whole of the Companies operating on the Kolar Gold Field, instead of being confiscated to Government. The Board incur heavy expenditure in the prosecution of cases of gold-theft, as well as in the maintenance of detective and watch establishments for the prevention of the same, and they respectfully submit that they have a right to such property when recovered.

Note.—See reply to the Address (Appendix E. I.).

SUBJECT No. 593.

Opening of certain Railway lines in the Kolar District.

1. Messrs. Srinivasa Rao and Rama-Rao of Malur Taluk.
2. Messrs. Gundu Rao, Basave-Gowda and Munisami Reddi of Bowringpet Taluk.
3. Mr. Chowda Reddi of Chintamani Taluk.
4. Messrs. C. B. Gopala Rao, Ramachar and Mudrajappa (Kolar Municipality).

Summary of discussion.—I. A Railway line may be opened from Bowringpet to Madanapalli *via* Kolar. This will afford great facilities not only for traffic but also to the travelling public.

II. No orders have been received in the matter of opening a Railway line from Chikballapur to Chintamani to connect with Chikka-Tippasandra Railway Station.

III. Kolar may be connected with Bowringpet by a Railway line as the traffic to and from Kolar is on the increase.

Reply of Government.—The Railway extensions have engaged the attention of Government.

SUBJECT No. 594.

Repairs to the compound wall of the Nandeswara temple.

Messrs. M. Varadachar, and Y. Narasimhaiya of Chikballapur Taluk.

Summary of discussion.—The compound wall of the Nandeswara temple at Nandi, is in need of repairs. It is requested that the walls may be ordered to be repaired out of the large funds at the credit of the temple.

Reply of Government.—The matter may be represented to the Deputy Commissioner.

SUBJECT No. 595.

Management of certain temples.

Messrs. M. Chinnappa and Venkatsamy Reddi of Srinivaspur.

Summary of discussion.—The temples of Kothandaramaswami at Yeldur, Venkataramanaswami at Ronur, Gopalaswami at Kambalapalli, Ramadevaru at Adgal are in receipt of an annual tasdik of Rs. 26-3-0, Rs. 8-12-0, Rs. 14-6-0 and Rs 23-2-0 respectively. Annual car processions are conducted at Ronur and Yeldur by the levy of subscriptions from the merchants that assemble there during the occasion. But no account is kept as regards the receipts and expenditure. It is requested that both

these temples may be taken under Muzrai management and worked on the system obtaining in Chik Tirupati of the Malur Taluk and Nandi of the Chikballapur Taluk. The temples at Kambalapalli and Adgal are in a dilapidated condition. The turret (Gopuram) of the temple at Kambalapalli was lately restored by one of the devotees at a cost of Rs. 500. For repairing the temple at Adgal, the devotees have collected some amount and the same has been kept in deposit. As these temples are long-standing ones, it is requested that Government may be pleased to take these two temples under Muzrai management and execute the required repairs.

Reply of Government.—The matter may be represented to the Deputy Commissioner.

SUBJECT No. 596.

The feeding of Brahmins at Alamgiri Utsavam by transferring the Chattram at Kolar for one week.

Mr. Chik Ramanna of Kolar.
Mr. Suryanaranappa of Kolar.
Mr. Chowda Reddi of Chintamani.

Summary of discussion.—The village of Alamgiri in the Chintamani Taluk formerly belonged to the Kolar Taluk. The big temple of Sri Venkataramanaswami in this village is an ancient and famous one. There are Inam lands to the value of upwards of Rs. 500 attached to this temple. There is also an annual tasdik of Rs. 50 and odd for the car procession. A day's feeding is given to the devotees that assemble during the procession out of the temple funds. Many Brahmins who assemble here on the occasion are put to much inconvenience for want of food during the succeeding five or six days. It is therefore solicited that arrangements may be made to transfer the Annachattram at Kolar to Alamgiri for a period of one week for feeding the Brahmins during the car procession.

Reply of Government.—This matter has already been disposed of (*vide* G. O. No. 1660, dated 27th September 1905). The present allotment to the chattram at Kolar is not enough to meet the cost of feeding the travellers. There is therefore no room to comply with the representation.

SUBJECT No. 597.

Repairs to the Lakshminarayanaswami temple at Narasapur.

Messrs. Srinivasa Rao and Rama Rao of Malur Taluk.

Summary of discussion.—The repairs to the Sri Lakshminarayanaswami temple at Narasapur have been executed half-heartedly. Foundation has been laid in some places and materials have been collected. Beyond this, no work has been done. Though three years have elapsed, the revised estimate has not yet been sanctioned. Orders may therefore be issued to complete the work early.

Reply of Government.—The matter may again be represented to the Deputy Commissioner.

The Deputy Commissioner will be asked to inspect and report on the representation.

SUBJECT No. 598.

Chattrams at Narasapur and Malur.

Messrs. Srinivasa Rao and Rama Rao of Malur Taluk.

Summary of discussion.—If, out of Rs. 72 transferred from the chattram at Narasapur to that at Malur, the sums of Rs. 42 and 30 are allotted to Malur and Narasapur chattrams respectively, and if proper arrangements are made, it will be very useful to travellers in both the above places. Representations have, from time to time, been made in this respect and early orders are requested.

Reply of Government.—The Deputy Commissioner's report has just been received.

The disposal of the matter will be expedited.

APPENDIX D.

MEMORANDUM.

I.

READ BY MR. VASUDEVA RAO OF CHIKMAGALUR.

The benefit of Conscience Clause for the Indians in the Mysore State.

The Government of India rightly observe complete neutrality in the matter of religious instruction in Government Schools and Colleges. So does our benign Mysore State. But there is an anomaly in the Aided Institutions of our country. In Missionary High Schools and Colleges, as well as in other Aided Institutions the benefit of conscience-clause is not allowed in favor of their Hindu, Mahomedan, Parsi, Lingayet and other pupils; while this concession is shown to *European* pupils in accordance with the provision made in Grant-in-aid Codes. By the expression "benefit of conscience-clause" is meant the liberty to participate in, or withdraw from, the act, at the time of Prayer, or of holding a religious class for teaching the Bible or the Catechism, etc., without forfeiting any of the other benefits of the school. This concession should be shown in favor of all pupils who are not of the same persuasion as that of the school authorities. Owing to this concession not being granted to the Indian pupils, these are now compelled to attend the Christian prayer at the beginning and close of school work, the Bible and Catechism classes and examination tests in these subjects, under pain of losing the other benefits of secular education. This they do much against their *conscience* and against the *free-will* of their parents and guardians. The conscience-clause that is now in force in all schools for Europeans in the different Provinces of India, as incorporated in the Madras Grant-in-aid Code is reproduced here for easy reference (Section 20 of Grant-in-aid Code, page 6).

"In schools for Europeans, it shall not be required, as a condition of any pupil being admitted into or continuing in the school, that he shall attend or abstain from attending any Sunday School or any place of religious worship; or that he shall attend any religious observance or any instruction in religious subjects in the school or elsewhere, to which his parent or guardian objects; or that he shall, if his parent or guardian wishes to withdraw him, attend the school on any day exclusively set apart for religious observance by the religious body to which his parent or guardian belongs."

As the above provision is sufficiently comprehensive and elastic, we pray that it may be incorporated into the Mysore Grant-in-aid Code that is, we hear, under preparation with a slight change at the beginning, substituting the phrase, "In all Aided Schools and Colleges" for "In Schools for Europeans" so as to secure equality of treatment for all His Highness' subjects that may attend Aided Schools for instruction.

This provision is adopted in favor of all European Schools in British India, It is also introduced in Travancore in favor of all non-Christian pupils.

I quote Dr. Duncan, who was Principal of the Presidency College, Madras, in support of my proposition.

"The special temptation (in Mission Schools) is insincerity. Is it, I ask, reasonable to expect habits of reverence and sincerity to grow up in a school in which the pupils are compelled to begin the work of the day by an outward participation in the worship of a faith alien to the majority of them and utterly distasteful to many of them? * * * * * The religious instruction which the orthodox Hindu youth receives in a Mission School contradicts in numerous ways the thoughts and feelings of his family and his society. In school he is compelled, as a condition of his receiving secular instruction, to participate in, and show reverence for, a worship which in his heart he does not believe, which outside school he is accustomed to hear spoken of, it may be with despite, and conversion to which would be regarded by his

parents as the greatest calamity that could befall them and him. Were attendance at religious exercises optional, there would probably grow up more reverence for those exercises, while the young would be less exposed to temptation from their besetting sin of insincerity."

MEMORANDUM.

II.

By Mr. M. C. Ranga Iyengar and others.

To—Sir P. N. Krishna Murti, Esq., K.C.I.E., Dewan of Mysore.

May it please Your Excellency, the humble memorial of Representative Members for the year 1905, respectfully sheweth.

That Mysore was for a period of fifty years directly under British Rule, that the forms and the machinery of the enlightened British Administration were introduced into the State, that even subsequent to the Rendition, the British Administration serving as a model, administrative improvements have been and are being effected and that surrounded as the State is by British Territories such a policy is calculated to be highly beneficient are too well known and recognized to need proofs or lengthy arguments.

That in this progressive State with the advance of learning and development of industries new interests are coming into existence and demand special legislation. The Legislative Branch of the Government important as it generally is in the special circumstances of this State has now become a matter of paramount importance.

The establishment of a Legislative Council will secure to the subjects of His Highness the Maharaja, the advantages which are being enjoyed by their neighbours in the British Territories. [In the Native States of Travancore and Hyderabad similar Councils have been established.] Memorialists are fully convinced that under the benign rule of His Highness the Maharaja this Model State will in no respect be allowed to lag behind other Native States in a matter so useful and necessary as the formation of a Legislative Council on a sound and practical basis.

Memorialists humbly pray that a Legislative Council may be graciously established and that permission may be vouchsafed to the Representative Assembly to elect at least eight members and submit their names for the approval of His Highness the Maharaja.

APPENDIX E.

1. ADDRESS.

READ BY MR. RICHARDS, THE CHAIRMAN OF THE KOLAR GOLD MINING BOARD.

I am desired by the Kolar Gold Field Mining Board on whose behalf I now have the honor to address you, to convey to you their sincere thanks for this further opportunity afforded to them of approaching you on matters affecting the welfare of the industry they represent, and I am to state that they are very grateful for the kindly interest which the Government of His Highness the Maharaja of Mysore has continued to bestow upon it.

Roads.—The Board, whilst thanking the Government for taking over the maintenance of several additional roads in the Gold Fields area, desire to draw attention to the necessity for thoroughly repairing the roads throughout the Field, the condition of which has recently greatly deteriorated.

Police.—I am desired by the Board to express their grateful thanks for the recent augmentation of the Police force on the Field and to record that under the able administration of the present District Superintendent it has performed its work very efficiently.

Police Act.—The Board are pleased to note that the Police Regulation for which they have asked in previous addresses is now receiving the attention of Government and they trust that this measure which is most essential for the well-being of the Field will very shortly be introduced.

Government Hospital.—The Board are greatly disappointed to notice that the Government Hospital situated at Robertsonpet, which has been practically completed for some months past, has not yet been made use of. The rapidity of the increase of population of the Field not directly employed by the mines, and therefore not entitled to treatment at the Companies' Hospital, demands that this institution should be brought into service at the earliest possible moment.

Maternity Hospital.—Once again the Board desire to state that a hospital of this nature is urgently needed.

Betamangalam Water Scheme.—Mines which participate in this scheme are grateful for the rapidity with which the repairing of the Betamangalam tank bund was effected, and much appreciate the benefits derived from the water-supply from this source.

Mining Regulation.—The Board were very pleased to have the opportunity recently afforded to them of discussing with the Honorable Mr. Hewett, Member of the Government of India in the Departments of Finance and Commerce and yourself, amendments to the existing Mysore Mines Regulations, suggested in their recent letter to His Highness' Government through the Secretary to the Geological Department. They earnestly trust that the amendments will soon become law.

Confiscation of stolen gold.—The Board desire to represent that gold which has been proved to have been stolen from the Kolar Field, and which has been confiscated to Government, should be returned to them, as representing the whole of the Companies operating on the Kolar Field. Mines incur heavy expenditure in the prosecution of cases of gold theft, as well as in the maintenance of detective watch establishments for prevention of the same. They respectfully submit their moral right to such property when recovered.

Dewan's reply to the above.—"I am thankful to the Mining Board for the address which you, as its Chairman, have just read. I am glad to note that it is a straightforward one, since it dwells upon, not only what has been done for the convenience of the mining industry, but also on what remains to be done by the Government. As regards the former, I shall take the needful action in the matter. Next you refer to the Government Hospital. Though the main buildings are ready the subsidiary buildings are not, at present. There is the full complement of the Medical Staff working on the Fields and the question involved is, after all, only the transfer

of a dispensary to a more convenient building. Then you represent the need for a Maternity Hospital. To answer it the Government have already made provision, which, I understand, has proved very useful. The question of enlarging it, however, will be considered as soon as funds permit. Finally you ask that gold stolen from the Fields should, instead of being confiscated as now, be returned to the Mining Board as representing the whole of companies operating on the Fields. This representation, formally made for the first time, raises a difficult question, essentially legal. You are aware that the legislation of Mysore is generally based upon that in British India, and you may take it that there is a great deal to be said against the proposal. You do not complain against any executive order of the Government, and in ordering confiscation our Courts have been acting under the provisions of the Criminal Procedure Code which are identical with those of the Code in British India I must not omit to say that confiscation is not necessary for fiscal purposes, as Mysore has reached such a pitch of prosperity as to permit us to forego this comparatively trifling source of revenue. His Highness' Government are also aware of the advantage resulting from proposal to some of the Mining Companies. The question, however, is too large to dwell upon at length in this connection, but I assure you that it will receive full and early consideration at the hands of His Highness. I shall gladly communicate the expressions of the Board's gratitude to His Highness the Maharaja. As regards the latter, I have necessarily to make a few remarks. First you bring to my notice the deteriorated condition of the roads in the Gold Fields. This is the first time the Government are made aware of this circumstance. The Chief Engineer himself knows nothing about this, and he has had to ask the Superintending Engineer for information. The Chief Engineer will, however, be asked by His Highness' Government."

2. An Address delivered by Mr. M. Venkatakrishnaiya.

"When the second Maharajakumari died in November last, the whole Province was touched with deep sorrow for her untimely end. We, the representatives of the people, have met here for the first time after her demise and we beg that you will offer to His Highness the Maharaja and the Royal family our heartfelt sympathy and sorrow on their sad bereavement.

For some years past, the seasons have not been favorable to us. This year has been specially so. Before the recent rains we entertained a great fear of a dreadful famine. The recent tour of His Highness the Maharaja and your own tour through some of the districts must have brought to the knowledge of His Highness the Maharaja and yourself the sad condition in which the labourers and the cattle in many parts of the Province have been. We are thankful to the Government for the prompt steps taken to stem, as far as possible, the tide of fear that threatened the lives both of men and cattle. We congratulate you on the financial prosperity of the State. In spite of successive bad years, the Government has shown a surplus which reflects great credit on the administration.

We endorse the compliments paid by you to Mr. Maconochie for the great interest he has been taking to throw life into the Industrial School, Mysore. I beg you will permit me to inform you that the interests he has been taking in the sanitary improvement of the City is no less enthusiastic. He is in fact, the life and soul of the sanitary improvement in the City. The Trust Board has done much for the City. If one who saw Mysore eighteen months ago were to see it again, he will find the magnitude of the sanitary changes effected by the Board. We are deeply indebted to the Government for the lakhs of rupees spent on the sanitary improvement of the capital and for the annual allotment of three lakhs therefor This liberal help will, before long, make Mysore an ideal sanitary town and one which will, in the fullness of time, confer great sanitary blessings upon this City. We look upon the sanitary improvement of Mysore as the forerunner of what is in store for the whole Province.

The failure of Agricultural Banks is to be regretted. Those who managed these banks lent money that did not belong to them and the supervision was not as satisfactory as desirable. This, we think, to be the secret of their failure. The Co-operative Credit Societies for whose establishment the rules are now framed have better elements of stability in themselves. The spirit of co-operation can be

extended to stimulate not only agriculture but also all kinds of industries. We have no doubt that these societies will, if popularised, take the place of agricultural, popular and other kinds of banks and will prove highly beneficial to all kinds of activities.

The liberal allotment made in the Educational Budget, the technical scholarships that have been instituted to enable students to go to foreign countries to learn different arts and industries and to give the benefit of their proficiency to the State after their return indicate the enlightened turn that has been given to the Educational Policy of Mysore. We request you to convey our sincere thanks to His Highness the Maharaja for his liberal educational policy and we hope that this policy will before long be productive of great industrial blessings to the State.

The additional encouragement shown to the Trustees of the Tata Research Institute by raising the grant from Rs. 30,000 to Rs. 50,000 a year, an encouragement which made the location in Bangalore of this Institute possible, is one for which we are sincerely thankful to His Highness the Maharaja. We fully believe that this is a step which will before long lead to uncommon industrial and scientific activity in Mysore and we cannot be sufficiently grateful to the Government for what has been done in the matter.

We are thankful to you for officially announcing to us the happy news of the gracious acceptance, by Their Royal Highnesses the Prince and the Princess of Wales, of His Highness the Maharaja's invitation to honor the State with a visit. We fully agree with you that it is an honor of which we cannot be more proud. This rare honor has filled us with great delight and we are glad to have an opportunity of showing to Their Royal Highnesses, expressions of our heartfelt loyalty. We do not know the way in which we are to do so and we hope that you will give a direction and guidance to our grateful aspirations."

The Dewan's reply.—"I shall be happy to communicate to His Highness the Maharaja your appreciation of the administration as well as the expression of your sympathies, devotion and loyalty."

3. An Address delivered by Mr. Anniah Pandit.

"We are all deeply indebted to you for the great patience with which you have listened to us. You have taught us what suggestions should be brought to the Assembly and what suggestions would obtain prompt redress at the hands of local authorities. We acknowledge your kindness in this matter. Just before the commencement of the Assembly, we were as much afraid of famine as the Government itself. Happily for the Government as well as for ourselves, the outlook became brighter and our fears have become things of the past. Your Address discloses numerous acts of progress in every direction and we see efficiency and economy on every side. This is a source of great delight to us. We cannot sufficiently acknowledge the solicitous concern that His Highness the Maharaja and yourself have shown in undertaking tours to see personally the condition of the people and to give them such redress as they stood in need of. The uncommon impetus His Highness' Government has given to agricultural and industrial development in a variety of way, bids fair before long to bear rich fruit. We cannot but heartily congratulate the Government in this matter. While feeling grateful to the Government for so many technical scholarships given to many students to enable them to obtain a good training in foreign countries, we beg to approach you with the humble prayer, that arrangements may be made to get the local talent so trained as to enable them to take the places not only of the European specialists such as, the present Agricultural Chemist, the Geologist, etc., but also the Micologist, the Entomologist, etc., that may hereafter be employed. We, in conclusion, pray that God the Almighty may bless His Highness the Maharaja and yourself with long life, sound health and prosperity and may also enable you to find your happiness in the contentment, prosperity and loyalty of the people of the State by continuing in your high office for many years to come."

Mr. Abdulla Saheb a Mahomedan Representative from Koratagere then seconded the vote of thanks by a speech in which he dwelt very eloquently on the numerous progressive measures carried out by the Government and invoked the blessings of God upon His Highness the Maharaja's Government and the State.

Mr. Srinivasa Rao of Harihar in delivering an address compared His Highness the Maharaja to the conscience of the State and the Dewan and Councillors to limbs of it and said that he was very happy to support the vote of thanks to the Dewan for the great sympathy and patience he showed in conducting the business of the Assembly.

The Dewan's reply :—" I thank you for your expressions of appreciation. I shall communicate them to His Highness the Mahâraja."

INDEX OF SUBJECTS

TREATED OF IN THE DASARA PROCEEDINGS FOR 1905.

[N. B.—"A" Denotes Dewan's Address.]

A

	Subject No.	Page.
Account——Tradesmen's—s, trust worthiness *in re*, certain suggestions *in re* ...	31	8
